DETAILED DESCRIPTION

Nirvana

NIRVANA is a passenger motor yacht under the Palau flag, classed by Bureau Veritas to HULL • MACH CHARTER YACHT – motor – S with Unrestricted Navigation, presenting a capable platform for charter and private use alike. As a luxury motor yacht designed for professional passenger service, she suits roles as a charter yacht, superyacht liveaboard, and expedition explorer. Her lines measure 39.95 m length overall with a 39.81 m waterline, a broad 9.00 m beam for stability, a practical 2.30 m draft, and a depth of 4.03 m; the vessel comes in at 390 GT with a displacement of 316 tonnes, striking a thoughtful balance between volume and efficiency. Performance is dependable and economical, delivering up to 14 knots at maximum and a comfortable 12 knots at cruising speed. Accommodation planning allows for twenty four guests and a professional crew of thirteen, making NIRVANA ideal for versatile operations and smooth service standards.

Engineering is built around twin Doosan 4V222TIH main engines rated at 588 kW at 1800 RPM, paired with Doosan reduction gears at 3.02:1 with trolling valve for precise low speed control, driving two ERC four blade propellers of 1275 mm. Close quarters handling is enhanced by an ERC bow thruster at 55 kW. Electrical power comes from two Doosan AD136 generators at 93 kW each, while wastewater is managed by an ACO Clarimar MF3 plant with a vacuum interface for efficient and clean operation. The electrical backbone features BV certified cabling and distribution panels; navigation lights are installed and commissioned, and bilge and fire systems are fitted with electrically actuated valves for reliable response.

Deck and outfitting equipment are specified for serious duty: ground tackle includes two HHP anchors of 360 kg each with 275 m of BV certified chain,

supported by DATA brand windlasses and capstans with a steel bell. Steering gear and rudders are also by DATA, ensuring consistent feel and durability. A forward hydraulic crane rated at 10 ton.m with an electro hydraulic power pack streamlines tender and equipment handling. Climate comfort is provided by a 360,000 BTU chilled water air conditioning system with fresh air make up units, while watertight doors are designed and tested in house for confident integrity. For dive ready operations, the yacht carries one Coltri LP 300 and two Coltri MCH16 Mark 3 compressors. Corrosion protection is secured through fifty six aluminum anodes on a five year replacement cycle. For clients seeking a refined, hard working platform—motor yacht, passenger yacht, charter yacht, superyacht explorer, and liveaboard—NIRVANA offers clear value, reliable capability, and an inviting path to ownership.

Нирвана

NIRVANA — пассажирская моторная яхта под флагом Палау, сертифицированная Bureau Veritas по HULL • MACH CHARTER YACHT – motor – S с неограниченным районом плавания; это уверенная основа как для коммерческого чартера, так и для личной эксплуатации. Как люксовая моторная яхта для профессиональной перевозки пассажиров, она одинаково уместна в роли чартерной яхты, суперяхты лайвэборда и экспедиционного «эксплорера». Её размеры: длина габаритная 39,95 м при длине по ватерлинии 39,81 м, ширина 9,00 м, осадка 2,30 м и высота борта 4,03 м; валовая вместимость составляет 390 GT при водоизмещении 316 тонн — продуманное сочетание объёма и эффективности. Ходовые качества уверенные и экономичные: до 14 узлов максимальной скорости и комфортные 12 узлов на крейсере. План по размещению рассчитан на двадцать четыре гостя и экипаж из тринадцати человек, что позволяет гибко работать на разных направлениях и поддерживать высокий уровень сервиса.

Силовая установка включает два главных двигателя Doosan 4V222TIH мощностью 588 кВт при 1800 об/мин, с редукторами Doosan 3,02:1 и троллинговым клапаном для точного маневрирования на малых ходах; тягу обеспечивают два четырёхлопастных винта ERC диаметром 1275 мм. Манёвренность на швартовах повышает носовое подруливающее устройство ERC мощностью 55 кВт. Электроснабжение обеспечивает пара генераторов Doosan AD136 по 93 кВт каждый, а сточные воды обрабатывает установка ACO Clarimar MF3 с вакуумным интерфейсом — чисто и надёжно. Электрика выполнена на BV сертифицированных кабелях и распределительных щитах; навигационные огни смонтированы, системы осушения и пожаротушения оборудованы электроприводными клапанами для точной работы.

Палубное оснащение выбрано с запасом прочности: якорное устройство включает два якоря ННР по 360 кг с цепью 275 м и сертификацией BV, работу обеспечивают брашпили и шпили DATA со стальным колоколом. Рулевое устройство и рули — также DATA, устойчивые и понятные в управлении. На баке установлен гидрокран грузовым моментом 10 т·м с электро гидравлическим приводом для обслуживания тендеров и оборудования. За климат отвечает чиллерная система кондиционирования на 360 000 BTU с приточными агрегатами свежего воздуха, а водонепроницаемые двери собственной разработки прошли испытания на герметичность. Для дайв операций на борту предусмотрены один компрессор Coltri LP 300 и два Coltri MCH16 Mark 3. Катодная защита реализована пятьюдесятью шестью алюминиевыми анодами с пятилетним циклом замены. Для покупателей, которым нужна практичная и изящная платформа — моторная яхта, пассажирская яхта, чартерная яхта, суперяхта эксплорер и лайвэборд — NIRVANA предлагает ясную ценность, надёжные возможности и понятный путь к владению.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
