OVERVIEW

The 40MXP elevates the celebrated 37XP explorer superyacht by replacing the aft beach club and garage with a spa style jacuzzi and an expansive, double width swim platform, and by enlarging the aft deck to create a more open seaside living area. That more conventional 37XP arrangement has been carefully rethought so owners can customise the layout to suit life at sea, producing a luxury motor yacht that responds to the way family and friends actually cruise and entertain.

Removing the garage and beach club allows the platform to extend and stretches the overall length from 37m to 40m, while the jacuzzi becomes a tranquil waterside retreat. By advancing the aft deck's sliding doors, the main deck's open air space is broadened—borrowing from the grandeur of the 37XP's salon to compose a generous outdoor living zone. The 40MXP preserves the impressive volume associated with the 37XP yet achieves a smoother relationship between interior comfort and alfresco enjoyment, making it especially well suited to bluewater cruising and charter.

Sundeck, boat deck, and interior layout options are carried over from the 37XP, retaining that proven tri deck explorer DNA; the primary alteration is concentrated at the transom. "MXP" denotes Mediterranean Explorer, and this 40 metre model presents an attractive alternative to a traditional tender garage—preferring a relaxed, resort style approach that keeps owners and guests closer to the water. The concept has already found favour with buyers, with three units sold.

The photography shows two completed 40MXP yachts—Hull #1 MIOUCH and Hull #2 MITAN—both delivered in 2025, each demonstrating distinctive finishes and décor. The outcome is a refined, long range explorer yacht with bespoke interiors, ample outdoor lounges and a warm connection to the sea—an elegant, contemporary superyacht designed for effortless

Mediterranean cruising and beyond.

DETAILED DESCRIPTION

Key features

Engineered for unwavering comfort and control, this yacht features electric fin stabilization and the reassuring redundancy of three 70 Auto Sync generators. A full climate-control suite with a central chiller, fresh air make up, and individually controlled fan coil units in every cabin delivers 480,000 BTU of heating and cooling, while two 230 l/h water makers ensure abundant fresh water on extended passages. Precision maneuvering is effortless with an electric bow thruster rated at 90 kW and a stern thruster at 45 kW. Confident anchoring and deck handling are assured by an electric twin anchor windlass with 18 mm chain runs of 140 + 190 m and twin stern capstan winches, complemented by a teak laid bathing platform and steps, teak side decks and foredeck, the teak flybridge stairway, and teak flybridge and cockpit floors. On the flybridge, a wetbar with sink, hot and cold water, electric barbeque, icemaker, and refrigerator invites easy entertaining, while a generous sunbed with plush cushions and the hot and cold swimming shower at the stern elevate open air living. A fully fitted crew cabin supports professional service, antifouling protects performance, and a tender crane with 3,000 kg capacity expands your exploration. Immersive entertainment flows throughout with flatscreen televisions in all guest cabins, the captain's cabin, and crew mess, all SAT ready, plus a 75" TV in the saloon and 65" screens in both the Owner's Cabin and the Master Cabin. A satellite TV system with an 85 cm dish secures crisp reception day and night, and six underwater lights set the scene at anchor. The helm is comprehensively equipped with Raymarine electronic depth and speed displays, autopilot, VHF with AIS, two radars, and a plotter suite featuring two 16 inch and three 22 inch displays. Safety and awareness are furthered by an automatic fire extinguishing system for the engine room,

automatic bilge pumps, six cameras with monitors in the wheelhouse and crew mess, GMDSS compliance, and Navtex NX300 or equivalent. Utilities are equally robust, with a 24 V DC service battery system paired to a 220 V AC electrical network, two 380 V 125 A shore supply connections, 380 V AC shore power with automatic reclaim and dedicated battery chargers, a remote controlled searchlight, and a twin pump pressurized hot and cold water system with shore connection. The yacht is built to RINA C + Hull Mach, Y Unrestricted Navigation standards and is fitted with a Yacht Monitoring System.

Optional extras

Elevate capability and personalization with factory options that include MAN D2868 LE428 engines rated at 800 bhp at 2100 rpm to IMO Tier III (SCR) standards and MAN D2862 LE427 engines rated at 900 bhp at 1800 rpm to IMO Tier III (SCR) standards. Style and versatility are enhanced by the extended carbon hard top and a remote opening soft top, while the upper deck can be configured as a salon in lieu of a cabin. Practical upgrades such as a side boarding ladder, a hydraulic platform, and the transformative Opacmare system streamline boarding, water access, and tender handling.

US package & pricing

To provide consistency in the marketplace worldwide, Numarine now advertises all pricing in EURO. For each model, a dedicated "US PACKAGE" is available at additional cost, bundling upgrades to the Numarine base specification such as IMO Tier III engine packages, shore power/frequency converters, US power packages, US spec appliances and maker's list, optional extended hard tops, and more. Detailed pricing for the "US PACKAGE," together with a comprehensive options list, is available upon request.
