EVOLUTION 40 — ARRIVING 2025

Evolution emerges as an immediate classic, its low slung profile and flowing lines defining a true tri deck pocket superyacht and luxurious motor yacht, conceived by designer Horacio Bozzo.

Measured with precision, she extends 40.50 m overall (132'11") with a waterline length of 39.50 m (129'06"), a generous maximum beam of 8.00 m (26'03") and a draft of 2.30 m (07'06"), achieving an estimated gross tonnage of 410 GT.

Her tankage supports extended voyages: 50,000 l (13,200 gal) of fuel, 10,000 l (2,640 gal) of fresh water, and balanced waste capacities with 3,500 l (925 gal) each for grey and black water.

Propulsion is provided by two Caterpillar C18 ACERT main engines rated at 599 kW @ 2100 rpm, complemented by twin generators of 2 × 80 kW to sustain onboard systems.

Designed for purposeful performance, Evolution reaches an approximate top speed of 14 knots at maximum power with half load displacement and offers a cruising range of roughly 4,200 nm at 10.0 knots.

A refined tri deck motor yacht built for bluewater exploration, long range passagemaking and elegant entertaining, she marries superyacht presence with contemporary design and pocket megayacht versatility.

DETAILED DESCRIPTION

Additional information

Introducing the EVOLUTION 40 m, a twin-screw displacement motor yacht conceived for confident bluewater passages and refined living at sea. Her main dimensions speak to balanced proportion and ocean-going poise: length overall 40.50 m (132' 11"), length at waterline 39.50 m (129' 06"), breadth 8.00 m (26' 03"), and a design draft of 2.30 m (07' 06"), with an estimated gross tonnage of 410 GT. Endurance is assured by generous tankage—fuel oil 50,000 lts. (13,200) gallons, fresh water 10,000 lts. (2,640) gallons, grey water 3,500 lts. (925) gallons, and black water 3,500 lts. (925) gallons—supporting extended autonomy and quiet confidence on long passages. Propulsion comes from 2 x Caterpillar C18 ACERT main engines, each delivering 599 kW at 2100 rpm, complemented by dependable onboard power generation from 2 x 80 kW main generators. She attains 14 knots at maximum power and half-load displacement, with a range of 4200 nm at 10.0 knots, a harmonious blend of performance, efficiency, and seakeeping. Built on a foundation of strength and precision, the hull is high strength steel Grade AH 36, while the superstructure is aluminum alloy 5083 H321 / H111, uniting durability with weight-conscious engineering. Classification is to Lloyd's Register Maltese Cross 100A1 SSC, Yacht, Mono, G6; Maltese Cross LMC - unrestricted navigation, LY3 compliance, underscoring her adherence to the most demanding standards. The exterior lines are by HORACIO BOZZO DESIGN, with naval architecture by AXIS GROUP DESIGN, shaping an elegant profile and a capable platform that turns nautical miles into effortless horizons.
