OVERVIEW

Conceived by Vripack and originally born from a hull crafted and delivered by the distinguished American yard Palmer Johnson, with her keel laid in 2000, the luxury motor yacht I SEA was transformed through a major rebuild by Navinco Greece in 2014 and received a final refresh in 2026. The result is a single, impeccably finished superyacht that combines generous interior volumes with expansive open-air living, a combination that has established her as a standout performer on the charter circuit in her class.

Her structure pairs an aluminium hull with an aluminium superstructure, sculpted into a semi-displacement hull form that ensures excellent seakeeping and assured handling. Propelled by twin Detroit Diesel engines, she cruises comfortably at 12 knots and reaches a top speed of 14 knots, while a maximum range of up to 2,500 nautical miles enables extended passages. A shallow draft makes secluded bays and near-shore anchorages easily accessible, and an advanced stabilisation system markedly reduces roll both underway and at anchor to deliver superb on-board comfort.

Accommodation is arranged for up to 10 guests across five suites, anchored by a full-beam owner's stateroom that serves as a private retreat complete with its own balcony, a cosy owner's salon, a king-size berth, a walk-in wardrobe and a generous en suite. Two matching VIP cabins are positioned on the main deck, while the lower deck houses two identical twin cabins alongside a dedicated playroom—an ideal layout for relaxed family use.

On deck, I SEA offers a sweeping sundeck centered by a raised Jacuzzi surrounded by luxurious sunpads and sociable seating areas. An alfresco bar and dining arrangement create an elegant setting for open-air meals and sunset cocktails, and a bathing platform provides effortless access to the water and to an exceptional selection of water toys—definitive attributes of a world-class charter yacht.

DETAILED DESCRIPTION

2025/2026 refit

Over the last two years M/Y I Sea has undergone a comprehensive, top-to-bottom refit of both interior and exterior spaces, leaving the yacht in superb condition throughout. A full repaint of the vessel has just been completed, and I Sea departed the shipyard one month ago after the final phase of extensive mechanical and technical work was finished. The propulsion train received meticulous attention: shafts and propellers were removed, fully overhauled, precision-balanced and restored to as-new condition, while stabilizers, the bow thruster, anchors, water makers, air-conditioning systems and all related machinery were serviced to the highest standards.

Externally every area of teak decking has been entirely renewed, and the yacht now carries a completely refreshed complement of water toys and guest amenities, including brand-new SeaBobs and e-foils, an inflatable slide, a swim platform with pool integration, full diving equipment and a wide range of additional accessories. The jacuzzi was also replaced with a new unit last year, enhancing the outdoor leisure experience.

Inside, the standard of fit-out has been significantly elevated. All furniture in the Owner's Saloon and the Main Saloon has been replaced with new sofas and dining chairs, and the onboard entertainment system has been comprehensively upgraded. In the Owner's Master Suite the mattress, bed linens, carpets, curtains and all soft furnishings have been renewed, while every guest cabin now benefits from new carpets, linens, towels and upgraded soft furnishings. All upholstery throughout the yacht has been replaced and every carpet on board is brand new, with approximately 80% having been installed within the past ten days, and selected areas have received new

flooring to complete the refreshed interior.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
