DETAILED DESCRIPTION

Section name

The Generation 450 yacht tender stands as a testament to advanced engineering and sophisticated design, delivering an outstanding experience with its deep V-Hull and impressive 75HP capacity, ensuring thrilling performance on the water. This tender is not solely about speed; it features an exceptional layout with generous storage, making it ideal for both relaxation and adventure. The built-in ski pole and boarding ladder enhance the enjoyment, providing easy access to aquatic activities.

Constructed with Walker Bay's exclusive Polyurethane Composite Micro Stringer system, the hull of the Generation 450 is both lighter and more durable. This cutting-edge construction technique, paired with a distinctive unidirectional glass and polyurethane grid bonding system, removes the air cavity found in other RIBs. The outcome is a sturdy hull that better absorbs wave impacts, ensuring a smoother ride. Its reduced weight allows for higher top speeds and rapid planing, boosting overall performance.

The Generation 450 spans 14 feet 9 inches in length with a 7-foot beam, offering a roomy open cockpit design. The interior is meticulously crafted with an ergonomic console, a tinted windscreen, and a console with a passenger backrest cushion. The bow and stern steps are finished with Gray or Mocha EVA, and the L-shaped bow bench seat also serves as a sun bed, complemented by a high-back stern bench seat. For storage, there is abundant integrated dry storage, a hydraulic stern storage hatch with push-button operation, and a built-in fuel tank with a 15-gallon capacity.

This yacht tender is powered by a 2021 Honda Marine BF60A1LRT 60hp four-stroke outboard engine, featuring Honda Deluxe engine controls, a key switch and harness assembly, throttle and shift cables, and a robust marine

starting battery. The Generation 450 also comes with a 2023 Trailmaster PKR 1622 trailer, equipped with the Trailmaster Platinum package, LED lighting upgrade, large steel side steps with aluminum diamond plate treads, carpeted inner fender covers, a spare tire with a welded side mount carrier, and matching "Walker Bay" paint and graphics.

Optional enhancements elevate the luxury experience, including a Fusion Audio Head Unit with four JL Audio Speakers, customizable RGB lighting in the speakers, a bespoke blue Aqualon cover, a Hawkeye Digital Depth/Temp Gauge, and a retractable ski pole. Standard features encompass stainless steel handrails and pop-up cleats, a removable 360° white pole light, LED navigation lights, a heavy-duty rub rail, ergonomic hauling handles, two cup holders, three davit lifting points, and a stern boarding ladder.

The Generation 450 is crafted for those who seek both high performance and comfort, making it a perfect choice for yacht aficionados who desire a tender that is as practical as it is elegant.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
