OVERVIEW

TAHI is a semi-displacement luxury motor yacht crafted by Heesen Yachts in the Netherlands, reemerging after a comprehensive, year-long rebuild completed in 2025 at an investment of about €5 million. Presented as a standout superyacht opportunity, she offers the next owner the clear advantage of shipyard downtime already absorbed, refurbishment expenditure accounted for, and the heavy refit workload finished. Her refreshed specification reflects either wholesale renewal or major overhaul of electrical and mechanical systems, navigation suite, entertainment technology, and interior spaces, all complemented by select upgrades that further elevate an otherwise uncompromising inventory. Newly fitted frequency converters provide seamless European 50Hz and U.S. 60Hz shore-power compatibility. Commercially compliant and prepared for bluewater cruising or premium charter, TAHI arrives ready as a turnkey luxury motor yacht, carrying the pedigree of a Dutch-built Heesen. Her semi-displacement hull promises efficient performance and a refined ride, and inspection is strongly recommended to fully appreciate TAHI.
