## OVERVIEW

---

The X145 GLOBAL extends the limits of seafaring exploration, transforming far-off horizons into attainable journeys. Advanced systems and a tailored aesthetic meld to produce travel without concession and a composed, assured expression of power.

This 44-metre steel-and-aluminum motor yacht combines a dual-mode hull with a 4,000-nautical-mile reach. Sculpted by Studio Agon, her generous internal volumes and purposeful profile capture the comfort and capability of a new-generation Explorer Yacht, Luxury Superyacht and long-range motor yacht in a single, cohesive vessel.

Built with a steel hull and aluminum superstructure, she offers 499 GT of volume and a 9.10-metre beam, carrying RINA unrestricted classification—an expedition-grade, ocean-going displacement platform designed to confront any sea state with confidence and autonomy.

A substantial fuel reserve of 50,000 litres underpins an exceptional 4,000-nm range at 10 knots, enabling transocean passages and extended bluewater cruising with efficient performance and minimal refuelling stops.

Generous exterior decks encourage effortless sociability and refined alfresco living, balancing sunlit lounging areas with protected dining spaces to enhance life both underway and at anchor.

An entire owner's private deck crowns the layout, supported by five double guest suites and a dedicated spa, a wellness retreat curated to soothe and indulge every inclination.

Base price €33,900,000 excluding VAT, with a bespoke new-build delivery timeline of approximately 32 months.

# DETAILED DESCRIPTION

---

## A spirit of innovation

---

The EXTRA Yachts line stands apart through an exclusive blend of qualities that redefine the very philosophy of “going out to sea,” shaping a distinctive yachting experience guided by harmony with the ocean. Each yacht embraces complete customization, delivers exceptional comfort underway thanks to outstanding seaworthiness, and ensures serene cruising with notably reduced noise levels. Purpose-designed for low fuel consumption, every model supports environmental sustainability while preserving impressive long-range cruising capabilities. A greater beam than yachts of comparable length sets a new standard for onboard volume, most evident in the bridge and salon areas where space and light flourish. The collection spans three distinct lines (FAST, TRIPLEX, and GLOBAL) ranging from 56 to 130 feet, complemented by a 30 m catamaran called VILLA. All models are crafted in advanced composites reinforced with carbon fiber, or in aluminum, to achieve optimal strength-to-weight performance and lasting reliability.

## About Palumbo Superyachts

---

Palumbo Superyachts began to take root in 2008 with the establishment of the Columbus Yachts brand, and in 2011 launched its first 54 metre superyacht, symbolically christened “Prima” (“the First”). Today, Palumbo Superyachts is a key global player in building yachts and superyachts in composite and metal, uniting craftsmanship and technology across 2 Mediterranean shipyards in Ancona and Savona. Operating under world-renowned names—ISA Yachts, Columbus Yachts, Mondomarine, and Extra Yachts—the group delivers design excellence, engineering rigor, and enduring quality across every project.

## Disclaimer
