OVERVIEW

The 45.6m (149.6ft) SCINTILLA MARIS is a beautifully transformed ocean-going trawler, boasting a RINA-classed robust steel hull that ensures exceptional seakeeping abilities. With an IMO Tier III-compliant hybrid propulsion system, she offers an impressive range of 9,000 nautical miles. Originally constructed by Damen Maaskant in 1988, this stunning vessel underwent a meticulous conversion by the same esteemed Dutch shipyard in 2023, featuring modern Vripack interiors that are illuminated by 30 strategically placed decklights.

Throughout an extensive four-year renovation, SCINTILLA MARIS was taken down to her bare steel frame, completely modernized, and rebuilt to reflect the owner's vision. While her exterior lines preserve her rich heritage, stepping inside reveals a fully updated expedition yacht, perfectly equipped for extensive autonomous voyages.

Accommodating up to 10 guests in five luxurious cabins, along with nine crew members, all cabins are situated on the lower deck, with four guest cabins located towards the bow. The expansive full-beam owner's suite at the stern boasts impressive ceiling heights and large skylights, flooding the warm interior with natural light. This yacht for sale is a remarkable opportunity for those looking to buy a yacht in the current boat location, making it a standout choice in yacht sales in the current boat location.

DETAILED DESCRIPTION

Scintilla Maris

Scintilla Maris is a custom-designed explorer yacht, crafted to the specifications of an experienced yachtsman who has spent decades cruising the seas. Launched in 2023, this yacht represents the pinnacle of comfort, quality, and style, with exceptional seakeeping characteristics. Built by Damen Maaskant in Holland, Scintilla Maris has just received her first tune-up, ensuring she is in prime condition for her voyages. Her robust, recycled trawler hull is complemented by cutting-edge technology in electric propulsion, navigation equipment, and vessel management systems, making her a captivating blend of a superyacht.

The interior of Scintilla Maris is open, bright, and contemporary, designed to maximize daylight and connect guests with the surrounding environment. The large master suite, located mid-ship on the lower deck, features a 1.5-meter diameter skylight and a lofty 2.4-meter ceiling height. The yacht's five guest cabins are configured to offer flexibility, adapting to the needs of her guests. On the main deck, a full beam main galley, styled as a 'country kitchen,' invites culinary interactions with the chef. The spacious bridge deck is equipped with three large monitors displaying navigational and operational information, providing guests with live situational awareness and encouraging engagement with the officers.

The main deck also features large glass doors that open to Scintilla Maris's centrally located beach club. This outdoor, shaded 'paradise' includes a lounge area, a bar, a galley, and water-level boarding platforms. The versatile space is perfect for partying, barbecuing, al fresco dining, or hosting formal gatherings for sunset cocktails, with stepless access to the water, tenders, and toys for endless fun.

Outdoor comfort is exceptional, with recycled generator heat providing ambient heating on the Portuguese Bridge and aft deck. A six-person observation platform, elevated 15 meters above the waterline, offers guests the opportunity to watch for whales and other marine life or simply relax and take in the surroundings.

Scintilla Maris's hybrid propulsion system allows for unrestricted use in areas with carbon emission bans. Fully electric, it is quiet, fuel-efficient, and features Dynamic Positioning (DP), which keeps the yacht stationary without anchoring by using thrusters, rudder, and propeller. This technology is ideal for remaining at rest in sensitive coral zones, deep fjords, or during wildlife observation, while also reducing rolling motion by maintaining the bow's alignment with the waves.

For those seeking the ultimate go-anywhere, all-electric platform for adventure and limitless exploration, Scintilla Maris offers a luxurious getaway where discerning guests can unwind and create unforgettable memories.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
