OVERVIEW

Step aboard EQUITY and discover a 45.72-metre (150-foot) Palmer Johnson PJ150 that artfully fuses high-performance capability with the refined presence of a modern superyacht. Conceived by the celebrated Nuvolari & Lenard studio and built as a lightweight aluminium performance motor yacht, she presents a low, purposeful profile and flowing volumes that belie the power beneath her skin. Propulsion comes from twin MTU 16V4000M90 units, each rated at 3,649 hp for a combined output of 7,298 hp, delivering a top speed of 28 knots and a comfortable cruising speed of 22 knots — ideal for swift transfers between exclusive ports or quiet coves.

Her substantial 8.40-metre beam creates exceptionally generous exterior lounges and interior living spaces that outperform typical expectations for a yacht of this length. Comfort at rest and on passage is assured by ABT-Trac Zero Speed stabilisation, engineered to calm motion underway and provide steadiness at anchor. Offered VAT-paid, EQUITY presents a straightforward route to immediate Mediterranean cruising, allowing new owners to embark without delay.

The interior accommodation is arranged with graceful practicality: five beautifully appointed staterooms accommodate 10–12 guests, anchored by a full-beam owner's suite that includes a private dressing room and a luxurious ensuite. Two dedicated VIP cabins offer enhanced privacy for principal guests, while two flexible guest cabins convert between double and twin layouts to adapt to changing party needs. Service is seamless with provision for up to eight crew across five crew cabins, ensuring attentive, discreet hospitality throughout every voyage.

A full exterior repaint completed in 2018 testifies to the vessel's meticulous upkeep and attention to presentation, and she is offered in turnkey condition. The result is a rare convergence of Palmer Johnson's athletic hullform, Nuvolari

& Lenard's Italian-influenced styling, and a proven, charter-capable layout that suits private ownership or premium charter markets alike. Combining exhilarating speed, abundant volume and sophisticated finishing, EQUITY stands as an aluminium-hulled sport yacht for those who demand both performance and the elevated comforts of a true superyacht.

DETAILED DESCRIPTION

Safety & fire protection

Every onboard safety element has been carefully specified to provide discreet, uncompromising assurance. The engine room is protected by a NOVEC suppression system while the guest and crew accommodations are safeguarded by a fog/mist fire system. These fixed installations are supported by portable fire extinguishers and a deployable portable fire pump; two complete fire suits, each supplied with SCBA, are carried alongside a fire axe and a fire blanket to ensure an immediate, professional response.

An integrated alarm network continuously monitors fire detection, bilge conditions and tank capacities. The lifesaving inventory is comprehensive and ready for action: adult and child life jackets, each fitted with a light and whistle; two liferings with light and smoke and two additional liferings with a buoyant line; a line-throwing device; one set of six rocket flares; two portable GMDSS radios; and two EPIRBs, with one SART. Security and situational awareness are further enhanced by a CCTV system of four cameras, with monitors positioned in the pilothouse, crew lounge, engine room, Captain Cabin and Engineer Cabin.

Mechanical equipment

At the core of the yacht's engineering is a ZF gearbox, paired with electrohydraulic fly-by-wire steering at the helm to ensure exceptionally precise control, while freshwater independence is secured by two FCI watermakers rated at 400 lt/h. Fuel integrity is maintained by Separ fuel filters complete with gauge, water sensor and priming pump, and onboard climate is curated by a reverse-cycle air conditioning system coupled with a dedicated

fresh makeup air system. Close-quarters handling is made effortless by a bow thruster with proportional control, and domestic hot water is supplied by a boiler fitted with one electric heating element.

Electrical systems

Designed for effortless connectivity and true global versatility, the yacht's electrical installation is anchored by one Glendenning CMS cable reel aft, supplying one hundred feet of shore power cable for a seamless dockside connection. The onboard system runs at 50 Hz and delivers both three phase and single phase voltages, while a dedicated converter effortlessly bridges international grids and is compatible with EU and USA standards, supporting 110 and 220 volts. Dependable starting power is provided by two 24V starting battery banks dedicated to the main engines and an additional two 24V starting battery banks for the generators, ensuring reliable performance wherever you cruise.

Navigation & communication

Meticulously appointed for clarity, safety and decisive command, the bridge pairs two primary VHF radios with two portable GMDSS radios complete with charger, while an additional seven portable radios ensure seamless shipwide coordination; dual DSC VHF controllers provide compliant digital calling. Long range links are maintained via one Inmarsat C satcom, and situational awareness is amplified by two X band radars. Precision positioning and traffic integration are delivered by one DGPS with AIS system, with steady course management entrusted to a single autopilot. Heading and orientation come from one gyrocompass together with a Furuno magnetic compass, and an integrated instrument package supplies wind, speed and depth information, further supported by a dedicated depth sounder; navigation is made effortless

through one chart plotting system. Safety systems include two EPIRBs and one SART, while NAVTEX keeps essential maritime broadcasts continuously available.

Galley & laundry equipment

The yacht's culinary suite is outfitted for refined, effortless cooking with a Miele four-burner induction cooktop at its center, paired with a Miele microwave oven and a Miele range hood that delivers efficient extraction; a Miele dishwasher discreetly handles all cleanup. Provisioning and frozen storage are entrusted to a Subzero Model 700TR refrigerator and a Subzero Model 700TC freezer, maintaining ingredients at optimal conditions. For extended passages, the laundry area is fitted with two stacked clothes washer units and two stacked clothes dryer units, allowing for true self-sufficiency aboard.

Deck equipment

On the foredeck a pair of Maxwell anchor windlasses drive two anchors each on its own dedicated chain, providing effortless handling at sea; aft, precise mooring and stern maneuvers are delivered by two Maxwell warping capstans. Seamless access ashore is afforded by a Besenzoni stern passerelle, while a generous, inviting swimming platform extends leisurely enjoyment around the water.

Tenders & toys

Equipped to invite effortless exploration, the yacht accommodates a single Williams DieselJet 445 tender, providing swift guest transfers and seamless beach landings. Aquatic excitement extends beyond the tender with a Sea-Doo jet ski and two Seabob F5 units, offering exhilarating surface performance and

immersive underwater discovery, while board-sport enthusiasts will find one wakeboard and one water ski aboard.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

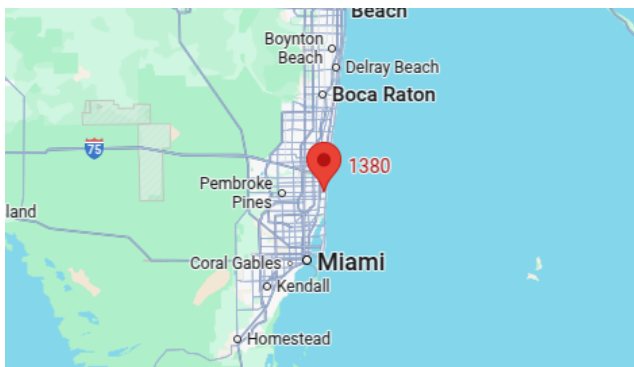

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
