OVERVIEW

CONSTANCE is a 46.4 m (152.1 ft) classic tri deck motor yacht of distinguished Dutch lineage, launched by Feadship in 1986. Built with a robust steel hull and a lightweight aluminium superstructure, she represents the enduring craft of a classic Feadship superyacht: timeless lines, resolute engineering and an unmistakable sense of proportion. Her exterior by De Voogt Naval Architects is composed and balanced, while interiors by Glade Johnson Design are refined yet welcoming, the traditional teak decks and a generous 418 GT providing a beautifully judged setting for three decks of bluewater displacement cruising. An extensive 18 month refit at Pendennis Shipyard in Falmouth, completed in the summer of 2016, comprehensively renewed CONSTANCE both technically and aesthetically. The programme delivered a full technical and structural renewal, replacing the entire engine room and bridge systems and installing new engines, gearboxes, generators and stabilisers. The boat deck was strengthened to support tender crane operations and a collision bulkhead was installed forward of an all new crew lounge, enabling unrestricted cruising in accordance with the latest MCA Large Yacht Code. Throughout the interior the original joinery was sensitively conserved while guest and crew areas were updated to current standards; externally she emerged revitalised with a complete repaint, new teak decking and upgraded deck equipment, restoring fresh lustre to this iconic Feadship.

Further significant works were undertaken in 2021, focused on exterior restoration and comprehensive mechanical servicing. She received another full repaint, targeted corrosion treatment and underwater hull blasting with fresh antifouling, together with structural repairs to steel and aluminium where required. Key systems—shafts, stabilisers, bow thruster, windlass, cranes and passerelle—were thoroughly serviced and complemented by additional interior enhancements and technical refinements, ensuring CONSTANCE

remains turnkey and meticulously maintained.

Propulsion is provided by twin Caterpillar Acert C32 diesel engines rated at 900 hp each, yielding a comfortable cruising speed of 12 knots, a top speed of 14 knots and a transoceanic range of some 3,800 nautical miles at 10 knots. Her stabilisation system further enhances onboard comfort underway, delivering composed passages that reinforce her pedigree as an ocean going private yacht optimised for long range, displacement style voyaging.

Accommodation is arranged for up to 12 guests across five well appointed cabins, affording privacy and serenity while meeting the exacting standards of Lloyd's Register classification and full MCA compliance. As a Dutch built tri deck motor yacht—equally at home as a family yacht, gentleman's yacht or bluewater superyacht—CONSTANCE marries heritage with modernity, offering an elegant, uncompromising platform for refined cruising.
