## OVERVIEW

---

Numarine's 47XP sits at the pinnacle of the brand's celebrated explorer series, a thoughtful development of the 45XP that reinterprets the aft-deck arrangement to enrich life on the water while preserving the yacht's range and operational capability.

Where the 45XP favors a traditional tender garage and beach club, the 47XP stretches the transom to reveal a sweeping waterside terrace complete with a pool, ample lounging areas, open air dining and a fully equipped bar—an entertainer's paradise crafted into a luxury motor yacht.

Designed as a true Mediterranean Explorer, this expedition superyacht retains the global, blue water credentials of its predecessor yet embraces an intensified alfresco lifestyle, ideally suited to sunlit summer cruising across the Med and far beyond.

An accelerated delivery programme targets handover approximately 36 months from contract, positioning the 47XP as one of the most compelling choices in the 45m superyacht class. Engineering and development are led by Kroes Marine Projects, and full specifications together with a general arrangement plan are available upon request.

The yacht's innovative spirit extends inside and out: the forward facing owner's suite opens on to a private exterior foredeck featuring a spa pool and waterfall element, while expansive floor to ceiling glazing bathes the living spaces in natural light. The interior language, curated by Milan's renowned Hot Lab, reinforces a refined, contemporary luxury throughout.

Every 47XP is entirely bespoke. Owners determine the exterior palette, interior layout, decorative narrative, aft pool deck appointments and sundeck concept, creating a long range cruiser tailored to their way of life. A full displacement steel hull underpins a 6,000 nautical mile range, and the generous boat deck—equipped with a 3 ton davit—accepts a 9 metre tender,

three full size jet skis and a comprehensive suite of watersports toys, delivering best in class statistics for an ocean going explorer yacht.

Measured at 499 GT, the 47XP's volume, construction quality and design innovation together present exceptional value in today's market for expedition yachts and luxury superyachts.

Numarine—explore the world.

Comprehensive technical details and the general arrangement are available upon request.

# DETAILED DESCRIPTION

---

## Features

---

A full specification anchored by Electric Fin Stabilization is complemented by a powerhouse energy suite of generators comprising two 118 kW units and one 50 kW unit, and comprehensive climate control via a central chiller with fresh air make up and individual controls throughout, including a dedicated fan coil in every cabin. Long range autonomy is assured by two desalinators, while electric bow and stern thrusters, together with a hydraulic twin anchor windlass and twin stern capstan winches driven by the main electro hydraulic system, deliver effortless maneuvering and flawless anchoring. The electrical architecture integrates 24 V DC alongside 380 and 220 V AC, matched to 380 V AC shore power with automatic reclaim and robust battery chargers. Comfort touches abound, from a hot and cold swimming shower at the stern to a flybridge wetbar with sink, hot and cold water, electric barbecue, icemaker, and refrigerator. Entertainment and connectivity are elevated by flatscreen televisions in all guest cabins, the captain's cabin, and the crew mess, each with SAT connection, plus a satellite TV system with a 60 cm dish. Confidence at the helm comes from Raymarine electronic depth and speed displays, autopilot, VHF with AIS, radar, and plotter, complemented by GMDSS and a Navtex NX300. Environmental and safety systems include a waste water treatment system, a toilet system with holding tank, an automatic fire extinguishing system for the engine room, and automatic bilge pumps, while a remote controlled searchlight stands ready for precise night operations. Exterior craftsmanship is expressed in teak laid across the bathing platform and steps, side decks and foredeck, the flybridge stairway, and the flybridge and cockpit floors, with a flybridge sunbed and cushions inviting relaxation underway or at anchor. Practicality is assured with a 3,000 Kg capacity tender

crane, a fully fitted crew cabin, antifouling, six underwater transom lights, a fuel polishing system, two twelve person life rafts, and eight cameras with monitors in the wheelhouse and crew mess. A twin pump hot and cold water pressurized system with shore connection and a comprehensive Yacht Monitoring System further enhance reliability and oversight. The yacht is built to RINA C + Hull Mach, Y Unrestricted Navigation.

## US package & pricing

---

To ensure clarity and consistency across the marketplace worldwide, all pricing is now presented in EURO, with a dedicated 'US PACKAGE' available for every model at additional cost. This curated upgrade suite can include enhancements to the Numarine base specification such as IMO Tier III engine packages, shore power/frequency converters, US power packages, US market appliances with makers list, and optional extended hard tops, among other refinements. Pricing for the 'US PACKAGE' is available together with a detailed options list, enabling a seamless, fully compliant configuration for United States operation.
