OVERVIEW

Recently finished an extensive two-year refurbishment, this stunning yacht boasts a fresh coat of paint by Rybovich, fully rebuilt 3512 Caterpillar engines, and brand-new 99kw CAT generators. The vessel also features a state-of-the-art Atlas shore power converter, a comprehensive AV and IT upgrade, and luxurious new interior furnishings. With the addition of a new hot tub and lounge area, every detail has been meticulously addressed. NICOLE EVELYN is in impeccable condition and is currently available for viewing in West Palm Beach, FL. This is an exceptional opportunity for those looking to buy a yacht in the area, with yacht sales in the current boat location offering a chance to own a truly remarkable vessel.

DETAILED DESCRIPTION

Section name

Presenting the NICOLE EVELYN, a luxurious yacht that embodies modern elegance with a warm and welcoming ambiance. Designed by Trinity Yachts, this vessel features an updated interior that accommodates 11 guests across five sophisticated staterooms. The full-beam on-deck master stateroom offers tranquil views, a his-and-hers en-suite bath, and luxurious amenities. Below deck, guests will find three king staterooms and a twin stateroom, each with en-suite baths, ensuring comfort and privacy.

Outdoor features of the NICOLE EVELYN include an outdoor bar, spacious sun pads, and an impressive sun deck perfect for alfresco dining. Built to MCA and ABS standards, she cruises at 14 knots and can reach a maximum speed of 19 knots. With a range of 2,600 nautical miles, powered by twin Caterpillar diesel engines and new Caterpillar generators, this yacht is designed for both performance and luxury. The updated zero-speed stabilizers further enhance the onboard experience, offering exceptional stability on the water.

The NICOLE EVELYN has undergone a massive refit over the past two years, including a complete paint job by Rybovich in 2023. The top-end rebuilds of the Cat 3512 engines were completed with all OEM parts in 2022, and two new 99kW Cat generators come with a Platinum Warranty through 2027. The vessel also boasts a complete new engine exhaust system, a new Atlas shore power converter and switchboard, and a comprehensive AVIT overhaul scheduled for 2024. New headliners, carpeting, and soft goods were added in 2023, along with a new hot tub and lounge area on the flybridge. The yacht is equipped with Starlink, ensuring connectivity wherever you sail.

Recent upgrades include new bottom paint and prop speed on all running gear in 2024, and a new Atlas switchboard installed in 2022. The port and starboard

main engines have undergone complete top-end rebuilds with all CAT OEM parts, and the engine exhaust systems have been overhauled with new exhaust lagging and associated hardware. The gearboxes have been completely overhauled, with rear main seals installed in both engines during the process. The engine room has been refitted and repainted with Awlgrip paint, and two new CAT 99kW generators have been installed. New carpet and padding have been laid throughout the entire boat, and the air conditioning plant has been overhauled. The water makers have been updated with new pumps and hoses, and the stabilizer system has been overhauled with new seals. The yacht also features a new raised hot tub and lounge area, new exterior cushions, and a complete AVIT overhaul, including new stereos, controllers, and iPads, scheduled for 2024.

The NICOLE EVELYN is a testament to luxury and performance, offering an unparalleled experience on the water with its seamless integration of technical specifications and elegant design.

Accommodations

Upon entering through either the port or starboard hinged swing door from the main deck, you are welcomed into a full-width foyer that offers completely unobstructed access to either side of the vessel. At the center of this elegant space is a mahogany banister with a spiral staircase that gracefully descends into the guest accommodations, which include four beautifully appointed staterooms.

As you move forward on the starboard side, you will pass a convenient stew closet and a spiral staircase leading up to the sky lounge. Nearby, the on-deck day head is easily accessible for guests. Continuing forward, you enter the on-deck master suite, which is a true sanctuary. This full-beam master suite features an office and is adorned with six oversized oval windows that flood the space with natural light. The centerpiece of the suite is a king-size bed

positioned centerline, offering a luxurious retreat. The master suite also boasts his and hers baths, complete with a passthrough shower and a jet tub arrangement, providing a spa-like experience. An abundance of large drawer storage and dual walk-in cedar-lined closets ensure ample space for personal belongings, making this master suite both functional and opulent.

Main salon

Upon entering the main salon from the aft deck through stainless steel framed double sliding glass doors, you are immediately welcomed by a full-service L-shaped bar with a luxurious marble top. This bar is thoughtfully designed with a sliding window that provides convenient access to the aft deck. The interior of the salon is a masterpiece of custom mahogany joinery, accented with high gloss cherry inserts and Burle inlays, creating an atmosphere of refined elegance. The space is bathed in natural light, thanks to nine large windows on both the port and starboard sides, which are complemented by Hunter Douglas pleated blinds and privacy shades for added comfort.

At the heart of the salon is a centerline entertainment center, featuring a 58" HDTV on an electric hi/lo lift, perfect for enjoying movies or shows in style. The seating area is both comfortable and sophisticated, with two custom upholstered sofas and two armless chairs, all arranged around a custom marble cocktail table. The salon is equipped with a Crestron lighting system upgrade and updated audio-visual equipment, ensuring a modern and immersive experience.

The bar is not only a visual centerpiece but also highly functional, featuring a stainless steel sink, a GE refrigerator, a Scotsman icemaker, crystal storage lockers, storage drawers, and lofted storage cabinets. To enhance the ambiance, five overhead speakers are strategically placed throughout the salon, providing high-quality sound. This main salon is a perfect blend of luxury and functionality, offering an inviting space for relaxation and entertainment.

Main deck foyer

The main deck foyer is a stunning introduction to the yacht's luxurious interior, featuring elegant marble floors that exude sophistication. This space spans the full beam width of the yacht, providing a sense of openness and grandeur. Dual entryways on either side offer seamless access to the exterior main deck, allowing for easy movement and a connection to the surrounding seascape. The on-deck day head is a testament to refined design, equipped with a marble vanity, an oval window that invites natural light, and a privacy shade for comfort and discretion. A stairwell gracefully descends from the foyer to the lower guest accommodations, ensuring a smooth transition between the yacht's various living spaces. This main deck foyer is not only a functional hub but also a beautifully crafted area that sets the tone for the elegance found throughout the vessel.

Formal dining area

As you move forward from the salon, you enter the formal dining area, a space designed for elegance and sophistication. At the heart of this area is a custom cherry dining table with a stunning quartz inlay, surrounded by seating for up to ten guests. Each chair is custom upholstered and features a cherry trim rail, adding to the refined ambiance. On either side of the dining table, marble top buffets provide both style and functionality, offering ample storage below.

The dining area can be transformed into a completely private space with the use of four frosted sliding doors, ensuring an intimate dining experience. The atmosphere is further enhanced by a Creston lighting system upgrade and a custom oval soffit with LED lighting, which casts a warm glow over the room. Two custom light fixtures add a touch of elegance, while eight double door storage cabinets offer additional storage solutions. The four windows are equipped with Hunter Douglas blackout shades, allowing for complete control

over the lighting and privacy. This formal dining area is a perfect blend of luxury and practicality, making it an ideal setting for memorable dining experiences on the yacht.

Galley equipment

The galley is a chef's dream, equipped with top-of-the-line appliances and features that ensure both functionality and style. It boasts two DelField stainless refrigerators and a DelField stainless freezer, providing ample cold storage for all culinary needs. For cooking, the galley is outfitted with two Rational convection/steam ovens and two Wolf ranges, each with six induction burners, offering versatility and precision in meal preparation. Cleaning up is made easy with both a Miele and a Kitchen Aid stainless dishwasher.

The galley also includes two double basin stainless sinks and two dry storage pantries, ensuring plenty of space for both preparation and storage. A stainless drink refrigerator and a stainless trash compactor add to the convenience, while a Panasonic microwave and a Scotsman icemaker complete the array of appliances. The space is elegantly finished with stainless backsplashes and granite countertops, providing a sleek and modern look.

For entertainment and convenience, a Samsung 23-inch TV is installed, and the galley can be closed off with a hinged privacy door featuring frosted glass.

Three oval windows with blinds allow natural light to fill the space while maintaining privacy. Safety is a priority with a fixed fire suppression system and a commercial extraction system in place. The galley is further enhanced by a Crestron lighting system upgrade and an increased BTU air handler, ensuring a comfortable environment. The Amtico flooring throughout adds a touch of elegance to this highly functional space, making it a perfect blend of luxury and practicality.

Master stateroom (on-deck)

The on-deck, full-beam master stateroom is a sanctuary of luxury and comfort, designed to provide an unparalleled experience at sea. This expansive space is illuminated by six oversized oval windows, offering breathtaking views and an abundance of natural light. At the heart of the stateroom is a custom upholstered suede king-size bed, positioned centerline, with a beautifully crafted suede bolstered bulkhead behind it. Flanking the bed are two built-in nightstands with elegant marble tops, providing both style and functionality.

The stateroom is equipped with built-in dressers on both the port and starboard sides, each topped with marble, and a built-in radius vanity with a bench seat on the port side. On the starboard side, an upholstered settee with cabinets on each side offers additional seating and storage. The high gloss white paneling with silk inserts throughout the room adds a touch of sophistication and elegance.

For those who need to work or relax, a Lucite desk with a lamp and chair is conveniently located in the entryway companionway. The built-in entertainment center, complete with a TV, cabinets, and bookshelves, ensures that entertainment is always at hand. Storage is abundant, with an oversized walk-in cedar-lined closet and a lockable secondary closet, providing ample space for personal belongings. Two Sub-Zero drawer refrigerators and a Burg-Watcher safe add to the convenience and security of the space. The ambiance is easily controlled with four Crestron light control panels.

The master stateroom also features a luxurious his and hers bath. The bathrooms are adorned with marble vanities, dual decorative sinks, and custom fixtures. His side includes an oversized marble shower, while her side boasts a round marble Jacuzzi tub, two heads, and a bidet, offering a spa-like retreat. This master stateroom is a perfect blend of opulence and practicality, ensuring a restful and indulgent experience on board.

Guest staterooms (four below)

Descending the spiral staircase from the main deck foyer, you enter the lower guest accommodation companionway, a space defined by its elegant marble flooring and exquisite mahogany joinery throughout. This area leads to a thoughtfully designed layout of guest staterooms, consisting of one twin stateroom located forward on the starboard side, a king stateroom forward on the port side, and two identical king staterooms situated aft.

At the centerline of this companionway is a convenient service station equipped with two Sub-Zero drawer-type refrigerators, followed by an interior storage closet, ensuring that guests have everything they need at their fingertips. Each of the four cabins is designed with the same luxurious amenities, albeit in slightly different configurations. The staterooms are adorned with mahogany joinery featuring burl inlays, creating a warm and inviting atmosphere. Each room includes an entertainment center, two oval-shaped portholes with sliding Shoji screens, ample drawer storage, and cedar-lined closet storage. The ensuite heads are elegantly appointed with granite tops and marble flooring, providing a spa-like retreat.

The guest staterooms are further enhanced by updated AV equipment and a Crestron lighting system upgrade, ensuring a modern and comfortable stay. The sliding Shoji screen panels add a touch of traditional elegance, allowing guests to control their privacy and light. With walk-in cedar-lined closets and dual nightstands with mahogany tops, these staterooms offer both luxury and practicality, making them a perfect haven for guests on board.

Crew quarters and laundry center

Descending the stairwell from the galley, you enter the well-appointed crew quarters and laundry center, designed to ensure comfort and efficiency for the crew. The crew quarters consist of three cabins, each equipped with

over/under bunks and an ensuite bath, providing privacy and convenience. The first officer's cabin is slightly larger than the two forward cabins, offering additional space. The crew mess is a welcoming area with a large L-shaped settee to port, featuring Corian countertops and ample shelving and cabinetry for storage. This area is designed to accommodate 9-10 crew members comfortably.

The crew quarters are equipped with a single basin sink, a Siemens ships alarm panel display, and a Samsung 50" HDTV for entertainment. A CCTV system is available on a 32" HDTV, ensuring security and monitoring capabilities. Additional amenities include a medical storage locker, a Sub Zero refrigerator, a Hoshizaki dishwasher, and a GE microwave, all contributing to a fully functional living space. The area also provides access to four bilge access hatches, ensuring easy maintenance and safety.

The laundry center is efficiently designed with overhead storage cabinetry and a Corian countertop, providing ample space for organization. A fold-down folding table adds convenience for laundry tasks. The center is equipped with two Miele washers and two Miele dryers, ensuring that laundry needs are met with ease. A sink is also available for added functionality. This crew quarters and laundry center is a perfect blend of practicality and comfort, ensuring that the crew can perform their duties efficiently while enjoying a comfortable living environment.

Pilothouse equipment / Captain's cabin

Entering the pilothouse from the starboard side companionway, you are greeted with an impressive 180-degree panoramic view through nine large windows, offering unparalleled visibility. The pilothouse is designed for both functionality and comfort, featuring two entry doors on either side that lead to the observation deck with the Portuguese bridge, enhancing the navigational experience.

Inside, the pilothouse is equipped with a large crescent-shaped settee, providing a comfortable space for relaxation or observation. The helm station is fully equipped with all necessary navigational and ship's monitoring equipment, ensuring smooth and efficient operation. A GMDSS station with current certification is also present, highlighting the vessel's commitment to safety and communication. The captain's office and on-deck captain's cabin are conveniently located within the pilothouse, offering a private and functional space for the captain.

The pilothouse features two wing station fold-out controls, located port and starboard outside the bridge, allowing for precise maneuvering. The helm is equipped with a Stidd adjustable chair and a custom cherry and stainless steering wheel, combining comfort with style. A large chart table and chart drawers provide ample space for navigation planning, while the Crestron lighting system upgrade ensures optimal lighting conditions. The upholstered leather settee with a stainless footrest adds a touch of luxury, and the custom oval soffit with LED lighting enhances the ambiance.

Additional features include a windshield wiper control panel, Kahlenberg horn control, and two ACR spotlight controls, ensuring the pilothouse is well-equipped for all conditions. The teak and holly flooring adds a classic nautical touch, completing this sophisticated and highly functional space.

Electronics, navigation and communication equipment

The yacht is equipped with state-of-the-art electronics, navigation, and communication systems, ensuring a seamless and safe journey on the water. At the heart of the navigation suite are two Furuno 96-mile X-Band Radars with ARPA, providing exceptional range and accuracy. The Furuno BNWAS system display and audible sounder enhance safety by monitoring the bridge. For precise positioning, the vessel is equipped with two Furuno Navigator GP-150

GPS units and a Furuno RD-30 display.

The helm features an array of monitors, including two VEI 23" monitors and three VEI 18" monitors, offering clear and comprehensive data visualization. The Sperry Marine NaviPilot 4000 autopilot and Gyro compass ensure precise course-keeping, while the Quantum bow thruster control and Quantum zero speed stabilizer controls provide superior maneuverability and stability.

Depth measurement is handled by the Furuno FCV 1200L depth sounder, and entertainment is catered for with two SeaTel Direct TV systems and VSAT satellite systems, complemented by Starlink for reliable internet connectivity.

The RexRoth engine control binnacle, along with Transas and Nobeltec navigation software, offers advanced engine and navigation management.

The yacht is equipped with two Caterpillar digital engine displays and engine start/stop switches with separate emergency stops for added safety. The Sperry Marine rudder order and angle indicators, along with the EMI Steering pump alarm panel, provide comprehensive steering information. Two B&G 20/20 displays, a Furuno VHF FM8500, and an Icom 602 VHF ensure robust communication capabilities.

Security is enhanced with an Elbex CCTV security system, and the AV system by RVI includes Apple iPads throughout the yacht, offering modern convenience and control. This comprehensive suite of electronics, navigation, and communication equipment ensures that the yacht is well-prepared for any voyage, combining cutting-edge technology with user-friendly interfaces.

Skylounge equipment

The full-beam skylounge is a luxurious retreat, offering a perfect blend of elegance and functionality. At its heart is a full-service mahogany bar, complete with refrigerated wine storage and custom lofted storage cabinets for glassware. The built-in entertainment center, featuring a large Samsung 50"

HDTV, ensures that entertainment is always at hand. Six oversized windows provide exceptional views, while custom Hunter Douglas shades and blackout blinds offer privacy when desired.

The skylounge is furnished with a low-profile leather sofa, cocktail table, and end tables adorned with decorative table lamps, creating a cozy and inviting atmosphere. Two leather barrel chairs add to the seating options, while a custom overhead soffit with LED lighting enhances the ambiance. The on-deck day head is elegantly appointed with a marble vanity, custom wallcovering, and head, ensuring convenience and style.

The space is further enhanced by a Crestron lighting system upgrade and updated AV equipment, providing modern convenience and control. The custom mahogany bar features a marble top, mirrored backsplash, and sink, complemented by a Fisher Paykel drawer-style dishwasher, Kitchen Aid trash compactor, Scotsman icemaker, and GE refrigerator. Three high-back bar stools offer comfortable seating at the bar, while three crystal glassware storage cabinets and eight lofted and hidden storage cabinets provide ample storage solutions.

Aft of the skylounge, through automatic double sliding doors, lies the upper aft deck. Here, dual marble top buffets are complemented by custom teak dining furnishings and lounging chairs, creating an ideal space for outdoor dining and relaxation. Access to both the upper sundeck and main aft deck is provided by spiraling teak step stairs with stainless grab rails, ensuring easy and safe movement between decks. This skylounge is a testament to luxury and practicality, offering a sophisticated space for relaxation and entertainment.

Upper aft deck

The upper aft deck is a beautifully designed outdoor space that seamlessly extends from the skylounge through automatic sliding doors. The deck is elegantly finished with teak, providing a warm and inviting atmosphere.

Storage cabinets on both the port and starboard sides feature marble tops, adding a touch of luxury and practicality.

At the heart of the deck is a Triconfort teak dining table, accompanied by six teak chairs with stainless bases, offering a perfect setting for alfresco dining. A teak settee with cushions and teak tables provides a comfortable area for relaxation, while four teak chaise lounge chairs and ottomans with cushions invite guests to unwind and enjoy the surroundings.

Access to the deck is made easy with two spiraling stairs featuring teak steps and stainless handrails, ensuring safe and stylish movement between levels. The high gloss white overhead panels add a modern touch, complemented by four outdoor speakers and fourteen bezel overhead lights, creating an ideal ambiance for both day and night.

For safety, the deck is equipped with an emergency fire station complete with fire pump control, ensuring peace of mind while enjoying this luxurious outdoor space. The upper aft deck is a perfect blend of elegance and functionality, offering a sophisticated area for dining, relaxation, and entertainment.

Flybridge / Sun deck equipment

Ascending to the sun deck via spiral teak stairs with a stainless steel handrail, you are greeted by a full-service L-shaped bar with a luxurious marble top and four fixed stainless steel bar stools. This area is thoughtfully designed with an open arrangement, allowing for versatility and comfort with an 11-piece custom teak outdoor furniture set. The deck is further enhanced by a new Jacuzzi tub located forward, complete with a lounging area for ultimate relaxation.

The bar and lounging area are complemented by an air-conditioned day head, featuring a basin sink and an oversized mirror, ensuring convenience and

comfort. The sun deck is equipped with a Nautical Structures 3500LB crane, providing the capability to lift up to a 20-foot tender and jet skis, making it ideal for water sports enthusiasts.

The bar is well-appointed with two Perlick refrigerators, a Hoshizaki icemaker, and a Thermal Engineering gas grill, perfect for entertaining guests. A single basin sink and two GFCI protected outlets add to the functionality of the space. Six storage cabinets and four stainless fixed pedestal bar stools provide ample storage and seating options. The deck is finished with non-skid paint for safety. Additional features include a Lexan and stainless framed forward windshield, four storage lockers for deck gear, and three removable sail cloth sunshades forward, offering protection from the sun. The Polk speaker sound system with six speakers ensures high-quality audio throughout the deck, while a Lorex security camera provides added security. The teak furnishing set includes sunlounge chairs, a settee, and tables, creating a perfect setting for relaxation and socializing. Eight stainless bezel overhead lights illuminate the space, and a 58-inch HDTV with a Skyvoe weather enclosure offers entertainment options. The round Jacuzzi tub, located forward with portable steps, completes this luxurious and versatile sun deck, making it an ideal space for both relaxation and entertainment.

Tender and toys

The yacht is equipped with an impressive array of tenders and toys, ensuring endless fun and adventure on the water. At the heart of this collection is a 17' Zodiac Pro RIB center console tender, powered by a robust 115HP outboard engine, offering both speed and stability for excursions. For those seeking excitement, the yacht includes two Yamaha wave runners, perfect for zipping across the waves and exploring the surroundings.

For a more leisurely experience, guests can enjoy three paddle boards, ideal for a peaceful glide over the water, or two sea kayaks, which provide a closer

connection to the marine environment. This diverse selection of tenders and toys ensures that there is something for everyone, whether you're looking for high-speed thrills or a tranquil paddle, making every moment on the water memorable.

Deck equipment

The yacht's deck is equipped with a comprehensive array of equipment designed to enhance both functionality and enjoyment on the water. At the forefront is the Muir hydraulic anchor windlass and capstans, ensuring smooth and efficient anchoring operations. The bow features a Nautical Structures 1100 hydraulic crane, providing robust lifting capabilities, while stockless anchors and an anchor locker access hatch ensure secure mooring.

For storage and convenience, the deck includes two oversized bosun lockers and jet ski cradles on the foredeck, offering ample space for equipment and water toys. The sundeck is equipped with a Nautical Structures 3500 davit, facilitating the easy handling of tenders and other equipment. Forward of the pilothouse, the observation deck with a Portuguese bridge offers a perfect vantage point for taking in the surrounding views.

The forward deck is adorned with custom oversized sun pads on both the port and starboard sides, providing luxurious lounging areas. Access to the water is made easy with two Marquipt ladders and a custom swim ladder, ensuring safe and convenient entry and exit. The deck is further enhanced by white and blue underwater lights, creating a captivating ambiance during evening hours. An outdoor shower adds to the convenience, allowing for a refreshing rinse after a swim. This deck equipment ensures that the yacht is well-prepared for both relaxation and adventure, offering a perfect blend of luxury and practicality.

Safety, security, and firefighting equipment

The yacht is equipped with a comprehensive suite of safety, security, and firefighting equipment, ensuring peace of mind for all on board. For security, the vessel features a Dahau CCTV camera system with adjustable cameras, providing extensive surveillance coverage. Touchscreen monitors in the pilothouse and crew areas allow for easy monitoring and control. Additionally, the yacht is equipped with six ship's safes, offering secure storage for valuables.

In terms of safety equipment, the yacht is prepared for any emergency with three life rafts equipped with Hydrostatic Release Systems (HSR), four life rings also featuring HSR, and an EPIRB that is float-free with HSR, ensuring rapid deployment in case of an emergency. A Class A MedAire medical kit is on board to address medical needs, and standard flares are available for signaling.

The firefighting equipment on the yacht is extensive and includes fire, head, and smoke detectors throughout the vessel, providing early warning in case of a fire. A fixed FM200 fire system is installed in the galley and engine room, offering robust fire suppression capabilities. Portable CO2 extinguishers are strategically placed throughout the yacht, along with standard fire extinguishers. The yacht is also equipped with three sets of firefighting bunker gear, three seawater firefighting stations, and a crash pump, ensuring readiness for any fire-related emergencies. A fixed CO2 fire suppression system is specifically installed in the engine room, providing an additional layer of protection.

This comprehensive array of safety, security, and firefighting equipment ensures that the yacht is well-prepared to handle any situation, prioritizing the safety and security of all passengers and crew on board.

Aft deck / Swim platform

The aft deck and swim platform of the yacht are designed to offer both luxury and functionality, providing an ideal space for relaxation and entertainment. The area features a Marquipt hydraulic passerelle on the starboard side, allowing for easy boarding. The high gloss varnished cherry stained cap rails and overhead panels, along with HVAC outlets, add a touch of elegance and comfort.

Boarding gates on both the port and starboard sides ensure convenient access, while a breakfast bar with a marble top and built-in bench seating with cushions create a welcoming atmosphere. The high gloss slid-able teak table, accommodating up to ten guests, is complemented by six teak and stainless dining chairs with cushions, perfect for alfresco dining.

The starboard side offers a secondary entrance to the engine room, and the deck is equipped with four 16,000 BTU air handler units, ensuring a comfortable environment. Two Muir hydraulic capstans and four stainless commercial-sized cleats provide robust mooring capabilities. Side glass weather shields offer protection from the elements, while fifteen stainless bezel overhead lights and four outdoor overhead speakers enhance the ambiance. Security is ensured with three Lorex security cameras strategically placed around the deck.

Storage is ample with seven deck storage lockers, and a fixed fire suppression release station adds an extra layer of safety. The teak decks and dual stairs with teak steps lead down to the swim platform, which is a highlight of the yacht.

The aft swim platform features aft underwater lights and new transom paint, creating a striking appearance. The oversized teak sole swim platform and step provide ample space for water activities. Dual 100A shore power connections and a hot and cold shower add to the convenience, while a dockside

freshwater connection to Spot Zero ensures clean water supply. Two stainless commercial-sized cleats and a watertight door to the lazarette/engine room complete this well-equipped area, making it perfect for both relaxation and practical use.

Electrical equipment

The yacht's electrical equipment is designed to provide reliable and efficient power management, ensuring smooth operation of all onboard systems. At the heart of this setup are twin Caterpillar 99KW generators, installed in 2022, which offer robust power generation capabilities. As of December 2024, the port generator has logged 400 hours, while the starboard generator has accumulated 500 hours, reflecting their relatively low usage and excellent condition.

Each generator is equipped with custom sound shields and two sets of analog gauges, allowing for precise monitoring and reduced noise levels. The yacht operates on a 120/208v, 3-phase electrical system, which is complemented by an Asea shore power system, ensuring seamless power supply whether at sea or docked.

The electrical system is supported by two sets of batteries: CCA1000, 24v DC batteries for each main engine, and 24v CCA 800 batteries for each generator. These batteries are maintained by two Mastervolt battery chargers, which ensure that both the main engines and generators are always ready for operation. This comprehensive electrical setup guarantees that the yacht is well-equipped to handle all power needs, providing peace of mind and uninterrupted enjoyment for all aboard.

Engine room and mechanical equipment

The engine room and mechanical equipment of the yacht are meticulously

designed to ensure optimal performance and reliability. At the heart of the engine room are two Caterpillar 3512B engines, featuring a stainless and chrome package, which underwent a complete top-end rebuild in 2022. These engines are paired with Reintjes 3.048:1 reduction gearboxes, providing efficient power transmission. The system is further enhanced by redundant hydraulic PTOs for the central hydraulic system, ensuring seamless operation. Fuel management is handled by three Racor 1000MA fuel filters for each main engine and two Racor 100MA fuel filters per generator, ensuring clean fuel supply. The Tides shaft seal arrangements and a 15" monitoring panel for ship systems add to the reliability and ease of operation. The yacht is equipped with three domestic system 15-ton A/C chillers, maintaining a comfortable climate on board.

The Headhunter Tidal Wave sewage treatment and grey water system, along with a custom fabricated black water vent flushing system, ensure efficient waste management. The Headhunter tank display and control panel provide easy monitoring of black and grey systems. The EMI steering control and alarm panel, along with two resilient mounted air compressors and a Hankison compressed air system dryer, contribute to the smooth operation of the yacht. Water management is supported by two Spot Zero 2100 GPD watermakers with touch panel displays, and a modified dockside filling/SpotZero system on the swim step. The Quantum zero speed stabilizer power pack with two 3-phase hydraulic pumps and a Quantum heat exchanger ensure stability and comfort at sea. Fuel transfer is facilitated by two AC powered fuel transfer pumps and an Alfa Laval fuel centrifuge with cycle automation, while an oil water separator per ABS standards ensures environmental compliance.

The engine room also features two hot water heaters, an auxiliary motor control panel, and a removable diamond plate decking system. The Delta T ventilation system and a CO2 fixed fire suppression system, as per ABS standards, provide safety and efficiency. Redundant bilge and fire systems,

along with an emergency steering and backup propulsion control center, ensure preparedness for any situation. An oil change system for mains, gearboxes, and generators, along with clean and dirty oil tanks, complete the comprehensive setup.

In the lazarette and engine control room, aft access from the swim step leads to the aft engine room access. The engineer's cabin features a double berth and ensuite head, along with an engineer's desk and computer. Storage cabinets, bilge accesses, and a steering flat access hatch provide functionality. Two Woodward EGCP-2 generator control panels, a power management center, and a ship's distribution switchboard ensure efficient power management. A Snap-On 53" toolbox with a workbench and fixed vise, along with a DelField refrigerator/freezer unit, Cornelius commercial icemaker, and Miele washer and dryer, add to the practicality of the space. A fixed firefighting station with hose and pump control ensures safety in this well-equipped area.

Work and upgrades

The yacht has undergone extensive work and upgrades to ensure it remains at the forefront of luxury and performance. The hull and ship construction have seen significant enhancements, including the reinforcement of hull plating and the installation of a new main engine exhaust system from the engine room to the transom in 2023. The vessel has been upgraded with 5086 aluminum piping, and the below-water seawater piping for the chain locker in the bow has been replaced and reinforced. The anchors and anchor chains were cleaned and re-galvanized in 2023, and the entire vessel received a complete paint job by Rybovich. In 2024, new bottom paint and prop speed were applied to all running gear.

The electrical system has been modernized with a new Atlas switchboard installed in 2022, and all high-voltage wires for air-conditioning have been brought up to current specifications. Shore power units were overhauled, and

automation was added with two new switchboards tested in 2023. The engine room lighting was converted to LED, and a new frequency drive for the compressor air-conditioning was installed.

In 2023, the hydraulic systems received a comprehensive overhaul, including the top deck and forward bow cranes, windlass, and gearbox for the windlass. All hydraulic hoses showing wear were replaced. The propulsion system saw a complete top-end rebuild of the port and starboard main engines in 2022, with new turbos, injectors, aftercoolers, and valve guides installed. The main engines and gearboxes received new resilient mounting, and various components such as CAT cylinder heads, injectors, and fuel priming pumps were installed. The engine room was refitted and repainted with Awlgrip paint, and the engine lighting was updated to LED.

The generators were upgraded in 2022 with the installation of two new CAT 99kW generators, which include a platinum warranty valid until 2027. The generator exhaust systems were overhauled, and new mufflers with updated stainless steel enclosures were installed. The interior of the yacht was refreshed with new vinyl in the bridge deck salon, engine control room, and crew galley, along with new carpet and padding throughout the entire boat in 2023. A Pullman bed was added to the twin guest cabin, and updates were made to the bridge console and crew quarters.

Plumbing upgrades in 2024 included the cleaning and sterilization of fresh, grey, and black water tanks, with new coatings and sealers applied by Rybovich. The seawater piping was replaced and overhauled. The air-conditioning plant underwent an overhaul, and all ductwork was professionally cleaned. The sewage treatment system was updated with a new transfer system, and the freshwater system saw an overhaul of water makers, new pumps, and installed hoses.

The stabilizer system was overhauled in 2022 with new seals, and exterior additions included a new raised hot tub and lounge area in 2023, along with a

custom frameless windscreen and stations around the flybridge. New exterior deck lights were installed in 2022, and a new overhead ceiling track mounting system was added in 2023. The vessel received a new teak deck on the swim platform, a new sunshade over the flybridge hot tub area, and new exterior cushions.

The AVIT system is set for a complete overhaul in 2024, including stereos, controllers, and iPads. A tender diesel fueling station was installed, and new computers were provided for the captain, mate, and engineer. The navigation display was updated in 2022, and new compressors were installed in the main refrigerators and freezers. New appliances include a washer and dryer for the control room, a new ice machine in the galley, a new cooktop in 2023, and a new commercial ice maker in the control room.

The compressed air system received a new air dryer in 2022, and the yacht's collection of toys was enhanced with two new Yamaha jet skis in 2022, a new inflatable island system in 2024, and a completely overhauled inflatable tender in 2022. These comprehensive upgrades ensure that the yacht remains a leader in luxury, performance, and modern amenities.

Exclusions

In the sale of this yacht, it is important to note that all personal items belonging to the owner and crew are excluded. This includes any personal effects, clothing, and other items that are not part of the yacht's permanent fixtures or equipment. These exclusions ensure that the yacht is transferred in a manner that respects the privacy and personal belongings of those who have lived and worked on board. As such, prospective buyers can expect a vessel that is ready for new ownership, with all essential equipment and features intact, while personal items will be retained by their respective owners.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
