## OVERVIEW

---

The 160 Super Sport lifts every voyage with added reassurance, refined comfort, and untroubled enjoyment. Reconceived from the hull up, this Boston Whaler staple blends the agility of a nimble center-console runabout with the sociable layout of a bowrider dayboat, pairing effortless handling with rugged, low-maintenance construction and a deliberately open cockpit. Elegant touches are practical: twin aft swim platforms make water access simple, a lockable, water-resistant compartment forward of the helm keeps valuables secure, and a stylish rear-accent hull color ensures the boat draws admiring looks at the dock.

Versatile seating choices—cushioned bench arrangements with supportive backrests among them—allow the cockpit to be arranged for family cruising, tender duties, or sun-drenched lounging with equal ease. Up forward, a plush bow cushion and a protective bow rail create a tranquil perch, while two helm cup holders keep drinks within reach. Watersports fans can choose the ski tow, and performance steps up with the available 90-hp Mercury FourStroke and the optional 19-gallon fuel tank. Always ready for action, this compact luxury day cruiser offers the graceful capability and relaxed spirit that make time on the water unforgettable.

# DETAILED DESCRIPTION

---

## Description

---

The 160 Super Sport makes every outing safer, more comfortable and more fun, introducing a keel-up redesign of Boston Whaler's popular Super Sport series with effortless operation, low maintenance durability and a smart, spacious layout. Fresh highlights include dual aft swim platforms for easy water access, a lockable, water resistant storage compartment at the front of the console to keep valuables safe and dry, and a stylish new rear accent hull color that turns heads at the dock. Thoughtful conveniences such as two console drink holders keep hydration within easy reach, while an optional ski tow elevates watersports capabilities for skiers and boarders alike. Versatility defines the cockpit, with available seating configurations that include bench seats complete with cushions and supportive backrests, and the option to add a bow cushion and bow rail to create a welcoming lounge up front. For those seeking even more punch, enhance performance with the available 90 hp Mercury FourStroke engine upgrade and extend your range with the optional 19 gallon fuel tank. However you configure it, count on the 160 Super Sport to be ready for action.

## Propulsion

---

Power is delivered by a Mercury ELPT EFI FourStroke outboard, an Outboard 4S configuration renowned for smooth, efficient running on gas. Rated at a total of 90 hp and showing just 50 engine hours, this setup pairs modern electronic fuel injection with easy electric start and trim, ensuring lively acceleration, confident cruising and trustworthy reliability.

## Specifications

---

With an overall length of 17.42 ft and a beam of 6.83 ft, the 160 Super Sport strikes an ideal balance of compact footprint and interior space, while a max bridge clearance of 3.83 ft and a shallow minimum draft of 0.83 ft open up skinny water creeks and low span routes. A dry weight of 1,060 lb makes trailering simple and launch days easy. The fiberglass hull features a modified vee form with a deadrise at the transom of 15 deg for a confident, dry ride and composed handling. Fuel capacity is 13 gal as standard, with an optional 19 gallon tank available to extend your range; there is no fresh water tank or holding tank fitted.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
