OVERVIEW

Available for viewing at anchor during MYS

The Mangusta 165 REV superyacht, launched in 2022, captivates with its stunning aesthetics and groundbreaking features. A collaborative masterpiece from Overmarine's Engineering Department and Lobanov Design, this yacht presents a bold silhouette that epitomizes Mangusta's signature elegance. Its smooth, flowing lines create a classic and sophisticated look, marking a notable evolution from the earlier Mangusta 165 model.

The exterior design of the Mangusta 165 REV draws inspiration from the sleek lines of 1930s sports cars, showcasing an elongated bow, a low profile, and dynamic contours. These artistic elements cleverly mask the yacht's impressive 499 GT interior volume. Noteworthy is the innovative approach to onboard living, highlighted by expansive side windows in the main saloon that effortlessly merge indoor and outdoor environments, allowing guests to fully appreciate the breathtaking ocean views. An additional glazed strip in the saloon extends to the ceiling, flooding the space with natural light. Two side windows in the saloon open onto fold-down balconies, enhancing the connection to the sea and inviting in abundant sunlight.

In line with the Mangusta legacy, the Mangusta 165 REV offers generous interior spaces, accommodating up to 12 guests with a master stateroom conveniently located on the main deck. This strategic placement ensures the owner's privacy while maximizing guest areas on the lower deck. The master suite, inspired by the elegance of New York penthouses, spans two levels and emphasizes seclusion. Streamlined side windows and a versatile entrance lounge create a private retreat, complete with plush sofas and coffee tables. The lower level of the owner's suite features circular designs, rounded windows, and a bespoke round bed tailored to the owner's desires. The suite is further enhanced by an onyx-clad bathroom and two spacious dressing rooms

with floor-to-ceiling glass, offering stunning sea vistas.

The Mangusta 165 REV masterfully blends interior and exterior spaces, providing ample deck areas for social gatherings while ensuring guest privacy. The innovative beach club invites guests to engage with the surroundings, featuring sunpads and sofas for relaxation. The infinity pool seamlessly merges with the ocean, creating a tranquil connection between the yacht and the sea. The expansive sundeck, covering 69 square meters, includes a bar and comfortable seating, perfect for entertaining. The yacht's tender garage, located on the side, accommodates a Williams 625 tender.

On the performance front, the Mangusta 165 REV excels with remarkable capabilities. Equipped with four Rolls Royce 2,600 horsepower MTU engines and four Kongsberg-Kamewa waterjets, this yacht reaches a maximum speed of 34 knots. Overmarine has focused on fuel efficiency, achieving a 30% reduction in consumption compared to previous models while maintaining speed. The yacht operates with exceptional smoothness and quietness, thanks to Veem gyro stabilizers, which minimize vibrations and noise both at anchor and while cruising. These stabilizers allow for comfortable cruising at speeds of 10 to 12 knots, enhancing the experience beyond that of similarly sized displacement vessels.

This luxurious yacht is currently available for sale in the current boat location, offering an unparalleled opportunity for those looking to buy a yacht that embodies sophistication and performance.
