OVERVIEW

Shortlisted for the 2026 International Yacht & Aviation Awards, LIVIA marries forward-thinking sustainability with an impeccably refined onboard lifestyle designed for the next generation of owners. Conceived by RMK Marine in collaboration with Red Yacht Design, this semi custom 50 metre motor yacht presents a fashion led silhouette while offering true bluewater capability, with an ocean going range of up to 4,000 nautical miles and the flexibility to welcome up to 14 guests across seven suites, all supported by a professional crew of 11 to ensure every expectation is met.

Environmental intelligence is integral to her concept: an advanced hybrid propulsion system delivers near silent passages and substantially reduced emissions, while integrated renewable systems and an intelligent energy management suite minimise hotel load. The result is quieter nights at anchor, extended autonomy away from shore power and lower operational expenditure, allowing owners to cruise farther and with a lighter footprint.

Ingeniously optimised volume beneath the 500 GT threshold creates the sense of a much larger yacht, most notably in the 50 m² main deck owner's apartment, which features a private balcony, Jacuzzi and a living green wall. Guest accommodation is arranged on the lower deck, configurable as seven cabins or alternatively six cabins with a dedicated gym and wellness suite complete with a fold out balcony. Crew quarters comprise six cabins in total — five situated on the lower deck with the captain's cabin positioned on the upper deck — ensuring professional service is both discreet and efficient.

Blending progressive naval architecture with responsible luxury, LIVIA offers an exceptional platform for private enjoyment or high yield charter, reinterpreting contemporary superyacht living for discerning owners. Pricing begins from €26,500,000, subject to specification.
