## OVERVIEW

---

Moravia Yachting is pleased to present ARIEL as a new central sales listing. Built by U-Boat Worx and delivered in 2019, ARIEL caps the Dutch yard's Cruise series and inaugurates a distinct class: an elegant seven-seat submersible conceived for serious deep ocean exploration.

Designed to carry six guests plus a pilot, ARIEL offers a bespoke interior with swivel seating arranged around a continuous 360-degree acrylic viewing system that creates an immersive panorama of the world beneath the waves. Classed to 1,140 metres, she is the perfect complement to a superyacht, explorer yacht or expedition yacht, equally at ease deployed from a support yacht or shadow vessel, and ideally suited to high-end research programs and private island resorts wishing to offer guests a memorable sense of place.

ARIEL stands alone in her field—the only seven-person U-Boat Worx submersible rated to 1,140 metres—marrying private luxury with commercial-grade capability to deliver effortless comfort for multi-generational family adventures. For owners with a genuine appetite for discovery, she grants access to the silent, otherworldly depths well beyond the reach of most recreational subs, elevating any megayacht program with both a signature luxury yacht toy and substantial expedition credentials.

Engineered around a titanium pressure hull and fitted with paired hyper-spherical acrylic domes, ARIEL prioritizes safety, stability and exceptionally clear visibility. Enjoyed by a single private owner and sparingly used since delivery, she presents in near-new condition and represents a standout opportunity in this class. Prior to handover, U-Boat Worx will undertake a full factory recommissioning, including a demonstration dive arranged in coordination with her next custodian.

Currently stored in climate-controlled facilities at the U-Boat Worx yard in Breda, the Netherlands, ARIEL is available for inspection by appointment.
