OVERVIEW

Launched in Italy in 2025, this 180-foot yacht presents itself among the most distinguished mega yachts of her generation, a contemporary motor yacht conceived for refined long-distance cruising. Built with a steel hull and steel decks, her lines were penned by Van Oossanen Naval Architects in close collaboration with Heesen Yachts to achieve an ideal balance of efficiency, seakeeping and stability; a 31 ft beam combined with a 9.58 ft draft yields generous volume and a commanding presence while preserving access to favored cruising destinations. Propulsion comes from twin MTU diesel inboard engines, delivering a composed 13-knot cruise with the ability to reach 16.5 knots when desired, and her tanks—holding nearly 28,500 gallons of fuel and in excess of 7,200 gallons of fresh water—support extended voyages with quiet confidence, her interior volume of approximately 758 in gross tonnage dedicated to privacy, comfort and effortless circulation.

Within, the interiors bear the unmistakable signature of Luca Dini, where Italian refinement informs every detail through sumptuous textures, sculptural forms and a calming palette that together create an atmosphere of *la dolce vita* at sea. Expansive saloons and tranquil lounges flow naturally to broad open-air terraces across the steel decks, inviting sun-filled days, shaded alfresco dining and elegant evenings under the stars with uninterrupted views to the horizon. Crafted for owners who prize both discretion and design, this new-generation mega yacht unites pedigree naval architecture with couture interior artistry, promising serene passages, polished entertaining and a singular sense of arrival—poised and ready in Italy for her next chapter.
