OVERVIEW

Step aboard M/Y STEEL, a remarkable 55m Pendennis superyacht delivered in 2009 and comprehensively renewed in 2025. Built for true exploration, her ice-class steel hull with 30 mm plating is engineered to shoulder through 80 cm of ice, granting genuine go-anywhere capabilities. Offered at €32,950,000 (VAT not paid), she is currently lying in Cannes, France, under the Portuguese flag. A luxurious motor yacht with expedition DNA, she blends superyacht elegance with rugged, bluewater confidence. Inside, the spacious Liebowitz & Partners design welcomes 12 guests across 7 staterooms: a full-beam owner's suite, two VIPs, and four twin cabins fitted with Pullman berths. Up to 12 crew are comfortably accommodated in 6 cabins, ensuring first-class service on every passage. Entertainment is seamlessly integrated: LG OLED screens, Yamaha amplification, and Apple TV 4K are fitted throughout the main salon, private lounge, and all guest suites—delivering cinema-quality experiences at sea. Built for adventure without sacrificing indulgence, STEEL includes a diesel-heated counter-current lap pool for both training and leisure. A forward observation basket provides a magical perch for dolphin watching, while a climate-controlled wine cellar for 600 bottles and an adjacent cigar lounge elevate evenings on board. The professional expedition galley—with a walk-in cold room—empowers gourmet dining in the most remote anchorages. Powered by twin CAT 3512B engines (2 x 1100 hp), STEEL cruises comfortably at 10 knots with an impressive 10,000 nm range, making her a long-range, ocean-going explorer yacht of rare capability. A full suite of machinery, navigation, and communications systems—together with Quantum Zero Speed stabilizers—delivers exceptional comfort and safety whether underway or at anchor. For those seeking a true luxury explorer, this ice-class, long-range displacement superyacht is primed for global cruising and ready for her next visionary owner.
