## OVERVIEW

---

Project Frida arrives as the latest addition to our esteemed 55-metre steel displacement collection. Designed by Frank Laupman of Omega Architects, her profile is at once restrained and commanding, the exterior recently honed to a crisp, contemporary edge. Low, horizontal design lines lengthen the eye, while continuous bands of tinted glazing on the main and upper decks lend Project Frida a bold, refined presence. A secluded owners' veranda creates a private outdoor refuge, inviting quiet moments away from guests. Proportioned to marry expansive al fresco terraces with elegant interior salons suited for repose and conviviality, this tri-deck, long-range cruiser remains sufficiently compact to slip into the most picturesque Mediterranean harbours—an elegant steel superyacht conceived for true blue-water exploration.

# DETAILED DESCRIPTION

---

## First impression

---

Project Frida distills the latest features and design innovations into a profile that is both pure and powerful. A distinctive “shark tooth” crowns the overhang of the wheelhouse, an intelligent signature that sharpens her stance and lends undeniable personality. In pursuit of a clean, svelte silhouette, fashion plates have been removed; aft, the superstructure is completely free of pillars, opening uninterrupted ocean vistas. This architectural clarity elevates the indoor–outdoor connection and delivers unsurpassed sea views from virtually every vantage point on board, even when you are seated in the sky lounge. In the restyle, window mullions in the main deck dining area and the sky lounge have been eliminated to forge an even stronger bond with the seascape.

Beneath the waterline, Frida is equally compelling. Her ultra-performing, supremely comfortable Fast Displacement hull, paired with two compact MTU4000 M63 engines (IMO Tier III), drives her to a top speed of 15.5 knots and ensures safe, composed passages in all sea conditions.

## Step aboard

---

Frida welcomes twelve guests in six staterooms, with vast 86 sqm owners’ quarters on the main deck forward, four guest cabins on the lower deck, and a VIP on the bridge deck. This arrangement makes the Heesen 55 metre class ideal for charter or for Middle Eastern clients who value an abundance of cabins.

Inside, the design by Luca Dini Design and Architecture cultivates a reassuring, traditional ambience that radiates warmth and welcome. A palette of inviting, sunlit tones wraps guests in comfort and homeliness, creating a

true retreat for those who spend extensive time aboard their yacht.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
