OVERVIEW

ISA Yachts, a proud member of the Palumbo Superyachts family, expands its next generation Granturismo line with the unveiling of the 66 meter ISA GT, a refreshed iteration of a celebrated series of motor yachts that unites performance temperament with refined luxury.

Conceived by Team for Design – Enrico Gobbi, this new vision blends athletic poise and understated sophistication, its balanced proportions and inventive details speaking to a modern superyacht language. Taut, flowing exterior lines reinterpret the “grand ocean coupé” ideal, drawing inspiration from high performance automotive and aeronautical motifs. A long, flush foredeck finished entirely in teak transforms into a versatile lounge, appointed with minimalist furnishings, luminous accents, and dramatic fire features. The unmistakable ISA bow has been sharpened into a more assertive presence, while expansive floor to ceiling glazing dissolves the boundary between luminous interiors and the open sea.

The hull wears a refined metallic blue grey, an automotive inspired hue that captures the colours of dawn and blurs sky and water to emphasize the sculpted volumes and sinuous curves. Broad, wing like side decks lead the eye aft and provide generous outdoor circulation, their glass bulwarks ensuring uninterrupted 180 degree panoramas—an essential trait of a world class superyacht.

A signature structural gesture is the integrated sky lounge, embraced by two lateral fins and a gently rounded profile; this adaptable space is conceived as a dining salon, fitness area, or panoramic retreat and is enhanced by a forward Jacuzzi. The bow pulpit has been crafted as a polished steel sculpture, underlining the custom, bespoke character of the vessel.

An infinity pool crowns the aft main deck, accompanied by an expansive lounging expanse with sunpads and convivial seating that are perfectly suited

to bluewater cruising and charter style relaxation. Inside, the design language continues with organic furniture forms, sweeping curves, and the finest materials—warm timbers, wenge accents, marble surfaces, and satin brass details combine to create a glamorous yet contemporary atmosphere.

Accommodation is arranged to favor both privacy and sociability. The full beam owner's suite forward on the main deck is awash with natural light and offers a serene retreat featuring a grand walk in wardrobe, a double vanity bathroom, and a private sitting area. Also on the main deck are two guest staterooms with double beds and en suite bathrooms. Below decks, four additional cabins—two doubles, one twin, and one convertible—deliver flexible options for family, friends, or charter guests.

The wellness zone doubles as a convivial beach club, equipped with spa facilities and expansive fold out sea terraces that open directly to the water, encouraging effortless access and leisure. Throughout, the layout celebrates sociability and intuitive use of every space while retaining the sporty, dynamic spirit that defines the Gran Turismo class of megayachts.

The ISA GT 66 reaffirms the shipyard's command of harmonizing aesthetics, functionality, and technical innovation, staying true to its heritage of crafting fully custom, high end superyachts.

DETAILED DESCRIPTION

Design & construction

The ISA Gran Turismo 66 motor yacht unites naval architecture by ISA Yachts with exterior and interior design by Enrico Gobbi – Team for Design, embodying the marque’s signature Gran Turismo poise and presence; a steel round bilge hull carries an aluminum alloy superstructure, a proven pairing that blends structural strength, fuel efficiency, and low vibration, while contemporary Italian styling is matched by true long range cruising capability, delivering blue water comfort and composure without compromising on elegance.

Classification

Built under Lloyd’s Register of Shipping to Class 100 A1 SSC Yacht Mono G6, with notations L.M.C., UMS, and EP, the yacht meets rigorous standards for construction, machinery, and unmanned automation, underscoring reliability, safety, and enduring value.

Principal dimensions

Length overall is 66.40 m (217’8”), with a length at waterline of 65.45 m (214’7”). A broad 11.00 m (36’0”) beam and a 3.30 m (10’8”) full load draft provide impressive volume and seakindly stability. Gross tonnage is approximately 1,200 GT, with a full load displacement of 1,014 t.

Propulsion & performance

Propulsion comes from two MTU 12V4000M65L main engines delivering a total

of two by 1,771 kW at 1,800 RPM via ZF gearboxes (ratio TBD). The yacht reaches a maximum speed of 18.5 knots and settles into a refined cruising speed of 16.0 knots. Her ocean spanning range extends to 4,500 NM at 14.5 knots, or 5,500 NM at 12.0 knots, balancing pace with remarkable efficiency.

Maneuvering & stability

A fixed pitch bow thruster of approximately 150 kW enhances close quarters control, while one pair of non retractable stabilizer fins ensures steadfast tracking underway. Zero speed stabilization elevates comfort at anchor, keeping the yacht composed even in a gentle swell.

Tankage

Generous tankage underpins extended autonomy: fuel oil capacity is 130,000 L (34,342 gal); fresh water capacity is 25,000 L (6,604 gal); grey water capacity is 30,000 L (7,925 gal); and black water capacity is 30,000 L (7,925 gal).

Accommodations

Elegantly appointed accommodations welcome twelve guests in six staterooms, complemented by dedicated quarters for a professional crew of fourteen in eight cabins, ensuring discreet, attentive service around the clock.

Disclaimer

The Company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor the condition of the vessel. A buyer should instruct his agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel is offered subject to prior sale, price change, or withdrawal without notice.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
