OVERVIEW

A graceful foredeck tailored for convivial lounging invites passengers forward, where social bow seating and removable backrests create a welcoming cockpit; the cushioned forward sun lounge conceals coffin-box storage beneath its pads, offering both comfort and practical stowage. A fold-down transom bench aft extends seating at the stern, preserving deck space when folded, while a hybrid leaning post—complete with an integrated Igloo cooler—anchors the helm for both angling and entertaining.

The exterior is refined by a full-hull color upgrade in Alpine Grey and complemented by the Midnight Edition package: a black powder coated T Top frame, black split bow rails, a black-finished leaning post, gel-coated hardtop underside outfitted with rocket launchers, an L/P grab rail, gunmetal speakers, and black caulking. The hardtop's underside outer ring is finished in black gel-coat, adding depth to the overhead profile.

On the technical side the helm omits a standard Garmin display, while hydraulic assistance is provided by a SeaStar steering system; practical systems include a freshwater washdown and a portable marine head (Porta Potti). The overall result is a refined center console conceived for sportfishing and dayboating, equally at home as a coastal cruiser or a luxurious tender.

DETAILED DESCRIPTION

2026 Scout 220 XSF

Purposeful from stem to stern, the 2026 Scout 220 XSF arrives outfitted with stainless-steel split bow rails framing a self-bailing cockpit finished in premium gel-coat and distinguished by a silver accent and pinstripe on the hull, while its NuV3 hull and reverse shoebox construction pair with one hundred percent hand-laid fiberglass for unwavering strength and a clean, purposeful profile. Nighttime safety and onboard refinement are elevated by one hundred percent LED lighting, and practical deck hardware including six-inch spring cleats and eight-inch pull-up stern cleats, a transom door, port and starboard swim platforms with ladder and foam pads on the platforms for secure footing make boarding and water time effortless. At the helm a center console with grab rail and a console cushion set provides ergonomic command, led by a stainless-steel steering wheel with a knob, BayStar hydraulic steering (with 150 HP), digital gauges and a compass for precise course-keeping beneath a powder-coated T-top hardtop with an electronics box and integrated windshield that shelters the command center. Entertainment is handled by a Fusion Bluetooth stereo paired with four six-inch speakers in the hardtop and an additional four six-inch speakers distributed throughout the cockpit, while a USB/USB-C combo port and an extra USB port keep devices powered and connected. Creature comforts abound with bow bolsters and a full bow cushion set, aft port and starboard bolsters and a forward sun lounge/coffin box with cushion, and ten stainless-steel cup holders are thoughtfully positioned so refreshments are always within reach. Anglers will appreciate four stainless-steel flush-mount rod holders at the stern, four under-gunnel rod storage locations, an aerated baitwell with a high-speed pickup and a raw-water washdown in the livewell for quick cleanups, while the

powder-coated aluminum leaning post with backrest integrates a seventy-two-quart Igloo cooler to keep provisions chilled. An on/off dual-battery select switch ensures dependable power management and an easy-access aft systems room with a polished bilge and lid simplifies service and inspection. From construction to finish every detail works together — premium gel-coat, the robust NuV3 hull, precise hardware and purposeful amenities contained within a self-draining cockpit that invites you aboard — and even protection is standard with shrink wrap included for secure transport and storage.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
