DETAILED DESCRIPTION

Sea Pro 230 Bay

The Sea Pro 230 Bay is a tailor-made vessel crafted for the Pan Handle, seamlessly merging practicality with elegance. This adaptable boat is compatible with engines from Suzuki, Mercury, and Yamaha, providing the power and dependability essential for a smooth voyage on the water. A key highlight of the 230 Bay is its forward deck step, which features a handy 5-gallon bucket storage, offering expanded space at both the bow and stern of the deck. This clever design enhances your fishing adventures by providing ample room for movement and storage. The hull sides and deck compartments are filled with foam, a feature that greatly minimizes noise during travel. This not only ensures a quieter ride but also offers superior insulation for fish and cooler boxes, keeping your catch and refreshments fresh. Moreover, this foam filling boosts the vessel's overall safety. To guarantee durability and longevity, the hulls and decks are meticulously gel-coated. This is followed by the application of a vinyl ester barrier coat on all hulls, effectively preventing osmotic blistering below the waterline. The capping knuckles and hull sides are also gel-coated, enhancing the boat's profile and visual allure. The Sea Pro 230 Bay exemplifies thoughtful engineering and design, making it a perfect choice for those in search of a dependable and customizable boating experience.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
