OVERVIEW

Immaculate 2022 Sportsman Open 232, a sophisticated center-console designed to elevate your next coastal escape. The Sportsman lineage is evident in every detail — an offshore-capable sportfishing dayboat that marries tournament-grade functionality with comfortable, family-friendly accommodations. Equally adept at chasing pelagics or lounging over sandbars, she offers the versatility serious anglers and weekend cruisers demand.

Driven by a Yamaha F250 four-stroke with fewer than 100 hours and remaining under full factory warranty, the powerplant delivers lively acceleration, economical cruise performance, and confident midrange punch even when the boat is fully loaded — genuine saltwater dependability. Navigation and engine monitoring are handled by twin 9-inch Garmin displays networked to the Yamaha system for instant access to charts, sonar, and engine data. A Fusion head unit powers JL Audio speakers, supplemented by hardtop-mounted drivers, filling the cockpit with clear, undistorted sound. Center Console. Offshore Fishing. Sportfishing. Family Dayboat. Coastal Cruiser.

DETAILED DESCRIPTION

Manufacturer provided description

This twenty three foot hull delivers an impressively smooth, dry ride with the kind of fishability seasoned anglers demand, marrying a seaworthy temperament with everyday versatility for family outings or focused fishing. A gunwale height 25 gallon livewell keeps bait at arm's reach, while a walk through transom fitted with a proper door and a collapsible rear bench makes boarding effortless and converts the cockpit from family mode to fishing mission in moments. The open center bow invites confident foredeck work and yet preserves large insulated bow storage boxes that double as cold space for gear and the day's catch. Standard bow cushions and supportive bolsters elevate comfort without compromising purpose, completing a versatile package that is equally at home chasing a bite or cruising the coastline.

Electronics, console and helm

Every command falls naturally to hand thanks to the SportLink Electronics Integration System that ties the helm together with a Garmin Fusion Apollo RA670 marine stereo and a Garmin GPSMAP 943xsv MFD with a nine inch display, creating a unified, intuitive control environment. Sound is rich and precise through four JL Audio M3 650X speakers with gloss white sport grilles, while an Airmar B60 thru hull transducer feeds clean sonar data to your screen. Daily operation is effortless with a console grab rail, a protective console windscreen, and a fitted dash panel cover, and power management is assured by a dual battery configuration with dedicated switch and trays. Comfort and practicality combine in a fiberglass console footrest with integrated storage, and useful details include a horn, hydraulic tilt steering for

fingertip control, and an interior LED lighting package for after dark elegance. Gear stays secure in lockable console storage, navigation remains clear with rub rail navigation lights, and reliability is built in with stainless steel switches. Fine tuning attitude and efficiency is simple using trim tabs with LED indicator, while in dash USB and 12V charging plugs plus a USB audio plug in the footrest keep devices powered and connected.

Livewells, pumps and storage

Purpose built fishing capability starts with a 25 gallon livewell that keeps bait lively and is backed by a high speed livewell pick up to maintain flow underway, ensuring oxygenated water even at speed. Tackle and provisions find their place in insulated bow storage that doubles as cold space for the catch, while dedicated anchor storage keeps the foredeck orderly and ready for action. Cleanup after the action is a breeze with a raw water washdown system positioned to rinse the cockpit and decks quickly and thoroughly.

Seating, upholstery and pads

Relax into a bow cushion set with supportive bolsters that invite lingering comfort while preserving functionality, complemented by cockpit bolsters that protect and brace where it counts. At the helm, a deluxe leaning post with flip up bolsters adapts instantly from stand up command to seated comfort, all upholstered in premium Sileather marine silicone fabrics engineered to shrug off sun and spray. A rear fold down seat with convenient access preserves serviceability without sacrificing seating, and a removable bow backrest provides ergonomic support only when you choose it, keeping the deck flexible for every outing.

Hull and deck

Engineered with the SportTech Advanced Fabrication Process, this hull carries a ten year hull warranty and the confidence of an NMMA Certified build, reflecting a commitment to long term quality. Fuel your adventures with a 103 gallon fuel tank equipped with a fuel level sensor, and keep rods ready in four flush mount gunwale rod holders plus under gunwale rod racks. The advanced fiberglass stringer system uses no wood for long term integrity, and the all white hull, sides and bottom, presents a timeless, clean profile. A built in swim platform with a three step ladder invites effortless reboarding, while Grip Tex yacht style non skid keeps every step secure. Details abound in practical touches: port and starboard toe rails for bracing, pull up cleats to keep decks snag free, recessed bow hand rails for a clean silhouette, and a self bailing cockpit for peace of mind. Thoughtful stainless steel appointments include eight stainless steel cup holders, stainless steel drain covers, a stainless steel propeller, a stainless steel rub rail, and a stainless steel steering wheel with a knob, while underlid gaskets seal compartments tight to keep contents dry and quiet underway.
