OVERVIEW

Yamaha Boats SX230. This exquisite powerboat, crafted by Yamaha, is a remarkable jet vessel designed for thrilling day-cruising, exhilarating watersports, and enjoyable fishing excursions. The SX230 features a robust fiberglass Modified-Vee hull, typically equipped with an inboard/outboard jet system, providing ample space for up to 10 guests to relax and revel in the experience.

Recent enhancements include upgraded starboard and port engines (documentation available), with the starboard engine boasting fewer than 50 hours of use, all expertly serviced by Bay Marine Customs.

The vessel is outfitted with new wiring, ensuring reliability and performance. An upgraded stereo system with Sub Tower speakers elevates your on-water entertainment, while the tower wakeboard holders and ski mirror enhance your watersport adventures.

A versatile table can be positioned in the center of the boat or on the rear platform, adding convenience for dining or socializing. The back platforms are adorned with brand new hydro turf, providing a stylish and functional touch.

With two batteries less than a year old and new wiring, you can trust in the boat's power supply. The addition of Thrust Vector XL on both engines ensures superior handling and maneuverability.

This stunning powerboat comes complete with an EZ Loader Aluminum Trailer, making it easy to transport and store, perfect for your weekend getaways. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that promises unforgettable moments on the water.
