# OVERVIEW

---

[Yacht Description]:

Spotless and in perfect condition, this yacht is the quintessential choice for day trips. With under 200 hours on the clock, it guarantees outstanding performance and dependability. Stored indoors in dry conditions until May 2024, the gelcoat is impeccable, and there's no need to worry about bottom paint.

A trailer accompanies the yacht, facilitating easy transport to your preferred locations. Recent enhancements include brand-new batteries fitted in December 2023, ensuring you're prepared for your next journey.

Discover yacht sales at the current boat location and take advantage of the chance to own a yacht that marries sophistication with practicality. This yacht for sale is a true treasure, ideal for those desiring a lavish dayboat experience.

# DETAILED DESCRIPTION

---

## Section name

---

[Yacht Description]:

The SPX 230® is a sport boat that perfectly balances excitement and comfort, capturing the spirit of the Sea Ray lineage. This vessel is engineered to exhilarate, combining robust performance with nimble handling, as expected from a top-tier sport boat. Its spacious layout comfortably seats up to 13 guests, making it ideal for both leisurely relaxation and thrilling water adventures. The SPX 230® is offered at a competitive price and provides options for either sterndrive or outboard propulsion, catering to diverse preferences.

Outfitted with a Mercury® FourStroke outboard, renowned for its dependability and fuel efficiency, it promises a smooth and cost-effective journey. For audiophiles, the SPX 230® boasts a high-end Fusion® audio system with Bluetooth® and Wi-Fi™ streaming, enriching the onboard entertainment. The helm features an intuitive design and can be enhanced with an optional 5" or 9" Simrad® touchscreen display, offering an upgraded command experience for the captain.

Sea Ray's dedication to excellence is reflected in the custom instrumentation with glass lenses, combining elegance with practicality. For those seeking to enhance their boating experience, the optional Elevation trim package adds convenience and style. Staying true to Sea Ray's design ethos, the SPX 230® offers exceptional performance and handling, making it an exciting choice for both adventure enthusiasts and casual cruisers.

## Hull and deck

---

[Yacht Description]:

The SPX 230® boasts a hull and deck that are expertly designed to blend strength with elegant style. At both the bow and stern, stainless steel eyes serve as sturdy anchoring points, while six thru-bolted cleats, also crafted from stainless steel and featuring Sea Ray logos, guarantee secure docking. The deck is enhanced by a stainless steel fuel fill plate, contributing to the vessel's refined appearance. A brass-threaded garboard drain plug is included to ensure efficient water drainage.

The exterior of the boat is finished with an Arctic White gel coat, providing a clean and timeless look. For enhanced safety and visibility, the SPX 230® is fitted with removable all-around stern lights and navigation lights at the bow. The hull is made from high-performance vinylester resin, which increases its durability and resistance to environmental factors. A black PVC rub rail with a stainless steel insert offers both protection and a touch of style.

For those passionate about water sports, the ski tow pylon is a valuable feature, while the swim platform, equipped with a three-step stainless steel undermount ladder, allows for easy water access. The thru-hull fittings are made from stainless steel, ensuring durability and a flawless finish. The custom five-piece windshield, with its matte black frame and tempered, tinted glass, includes a practical walk-thru design, merging functionality with a contemporary look.

## Cockpit

---

[Yacht Description]:

The SPX 230® cockpit is crafted with an eye for both elegance and utility, providing a lavish yet functional area for guests. Strategically positioned

stainless steel drink holders with drains ensure beverages are always within easy reach. The cockpit boasts a refined vinyl color palette in ivory, blending a white base with brown accents for added sophistication. A 35-quart portable cooler with its own storage spot keeps refreshments readily available.

12V courtesy lights illuminate the area, fostering a warm and inviting ambiance. The dashboard is finished in white with a matching visor, contributing to the seamless design. Access to the transom is secured by a door with a stainless steel latch, and the floor is made from finished fiberglass, offering durability and ease of upkeep. Stainless steel grab handles are placed throughout the cockpit for safety and support.

The head compartment features a lockable door and extra storage, providing both privacy and convenience. A 12V accessory outlet with USB ports ensures devices stay charged and ready. Side panel storage and a dedicated ski/wakeboard compartment with matting and a gas-assisted fiberglass lid offer ample room for equipment. The convertible sunpad includes an aft-facing backrest and a port transom walkthrough, enhancing comfort and accessibility. The marine-grade vinyl throughout the cockpit is treated to resist mildew and UV rays, ensuring durability and comfort.

## Seating

---

[Yacht Description]:

The SPX 230® offers a seating layout meticulously crafted to enhance both comfort and utility for every passenger. At the bow, seats are adorned with plush cushions and feature handy storage beneath. The port and starboard bolsters, together with a center section facing aft, offer flexible seating arrangements for relaxation and social interaction.

In the cockpit, the L-shaped bench seat on the starboard/aft side stands out, featuring an insulated cooler and storage tub underneath for added

convenience. The port transom walkthrough improves accessibility, while the sunpad serves as a convertible transom seat, ideal for basking in the sun or taking in the scenery.

The companion seat is designed in a bucket style, equipped with a swivel and slider mechanism and a flip-up bolster, allowing for tailored comfort and flexibility. The helm seat follows this design, providing the captain with a bucket seat that also includes a swivel and slider, along with a flip-up bolster, ensuring a commanding and comfortable position while steering.

## Helm

---

[Yacht Description]:

The helm of the SPX 230® exemplifies exceptional design and functionality, equipping the captain with everything necessary for a smooth and enjoyable navigation experience. Audible engine alarms for oil and water are integrated, ensuring the captain is promptly informed of any potential issues. A dash visor is included to minimize glare and improve visibility, while a depth gauge offers crucial information about the water below.

The helm features a horn switch linked to a stainless steel horn, ensuring dependable signaling. The custom Sea Ray instrumentation is backlit and includes glass lenses with low-glare night lighting, providing clear readings of fuel levels, oil pressure, speed, a tachometer with an LCD hour meter, trim, and water temperature. The shift and throttle lever is equipped with a trim switch and a lanyard stop switch for enhanced safety and control.

Steering is effortless with the hydraulic tilt wheel from Isotta Fiume, allowing for smooth and responsive maneuvering. The Fusion® SRX400 stereo system, powered by 12V, offers AM/FM radio, Bluetooth™, and Wi-Fi audio streaming, complemented by two pairs of Fusion 6.5" speakers for an immersive sound experience. The switch panel is fitted with weatherproof lighted chrome toggle

switches, ensuring durability and ease of operation. Power tilt and trim functions further augment the helm's capabilities, making it a truly comprehensive command center for the SPX 230®.

## Electrical

---

[Yacht Description]:

The SPX 230® features an electrical system crafted with a focus on dependability and safety, ensuring an uninterrupted boating experience. Central to this system is a battery on/off switch, granting the captain simple control over the vessel's electrical supply. The battery is securely placed in a dedicated tray with a mount, providing stability even in turbulent conditions. A fuse block is incorporated into the system, offering protection and easy access for maintenance, which is essential for avoiding electrical problems. The boat's wiring is color-coded and equipped with chafe protection, enhancing both safety and ease of troubleshooting. This meticulous attention to detail in the electrical configuration ensures that the SPX 230® functions smoothly and efficiently, allowing you to fully enjoy your time on the water.

## Bilge

---

[Yacht Description]:

The SPX 230® is equipped with a bilge system meticulously designed for safety and efficiency, offering peace of mind during your time on the water. At the core of this system is a 12V automatic bilge pump, which activates as necessary to effectively remove any excess water from the bilge area. This automatic function is essential for keeping the boat's interior dry and secure, particularly during long outings.

Enhancing the bilge pump's functionality is the insulated engine compartment, which not only minimizes noise but also boosts the vessel's overall efficiency.

The insulation ensures the engine runs within optimal temperature ranges, improving both performance and durability. Together, these elements make the bilge system of the SPX 230® both dependable and efficient, allowing you to fully enjoy your boating adventures.

## Fuel systems

---

[Yacht Description]:

The SPX 230® features fuel systems that are expertly crafted to prioritize safety, efficiency, and environmental stewardship. Central to this setup is the evaporative emissions fuel system, designed to significantly reduce the release of fuel vapors into the air, meeting contemporary environmental standards. This system not only diminishes the boat's environmental impact but also boosts overall fuel efficiency.

The fuel lines employed are USCG Type A-1, renowned for their strength and adherence to rigorous safety regulations. These premium fuel lines guarantee a consistent and secure fuel flow throughout the vessel. The fuel tank is fitted with an anti-siphon valve and an electric sending unit, adding an extra layer of security by preventing fuel theft and ensuring precise fuel level measurements. Collectively, these elements render the fuel systems of the SPX 230® both sturdy and dependable, allowing you to enjoy your nautical adventures with peace of mind.

## Disclaimer

---

[Yacht Description]:

The Company offers the particulars of this vessel with sincere intent, aiming to deliver precise and thorough information. Nonetheless, it cannot assure or guarantee the accuracy of these details or the vessel's condition. Potential buyers are advised to have their agents or surveyors meticulously examine

and confirm any details they consider crucial. It is essential to understand that this vessel is available subject to prior sale, price adjustments, or removal from the market without prior notice.
