OVERVIEW

Now berthed at Rybovich in West Palm Beach, positioned inside the FTZ and offered for sale, this steel-hulled luxury superyacht was built by the celebrated Italian yard Tankoa and originally launched as SOLO, earning a strong reputation in the charter market. She features a dedicated helipad and an internal elevator for effortless vertical circulation. The owner's deck is designed to maximize forward vistas and includes a private office with direct passageways that lead forward to a compact spa pool and aft to a more generous hot tub. All guest accommodations are located on the main deck, anchored by a full-beam VIP suite and four large cabins fitted with expansive windows; in total the layout comprises six staterooms: the Owner's suite, the VIP and four guest cabins. A dedicated massage room on the bridge deck benefits from its own ensuite shower. A refined Beach Club opens via folding side terraces, with a gym on one side and a steam-equipped sauna on the other, complete with a full-service bar and transom doors that lead straight to the swim platform — which, in certain conditions, requires storm shutters.

DETAILED DESCRIPTION

Story

Originally started with her keel laid in December 2009 before the build was paused, the project was ultimately completed with final delivery in 2018. Sold in May 2023 to an experienced American yacht owner, she subsequently underwent a substantial refit and received a fresh exterior repaint in late 2023. The current owner acquired her in a trade involving an Amels 242, and since that time a full-time, dedicated crew has worked continuously over the past year on extensive refit works and repairs to present her in peak condition, with no charter activity or owner use during this period. Located within the FTZ at Rybovich Marina, she is available for inspection at short notice and is offered as seen with her full inventory, exclusions limited only to the crew's personal possessions. Previously operated commercially and able to be returned to commercial status, she remains In Class with Lloyd's and fully up to date with Cayman inspections and requirements, having entered dry dock in June 2026 for fresh antifouling, stabilizer servicing, and replacement of valves and sea chests.

Refit & maintenance

In 2025 the main engines (ME) underwent their scheduled comprehensive maintenance programme: heat exchangers and aftercoolers were removed for thorough cleaning, valve clearances and injector heights were precisely re-set, and the ME exhaust systems received a full rebuild and replacement — a substantial undertaking. The main engine environmental control systems were serviced, the HUG emissions system was overhauled by the manufacturer, generator environmental controls were attended, and the diesel particulate filters were extracted and professionally cleaned.

During 2026 the vessel received an intensive hygiene and systems refresh, including deep-cleaning and antimicrobial fogging of all fan coils, HVAC ducting and galley hoods and extraction. The port water tank was cleaned and its internal coating renewed. Main engine sea chest valves and strainers were replaced and the gearbox was serviced in accordance with OEM recommendations. New CCTV units were installed in stainless housings, solar film was applied to the Owner Deck and Beach Club, and the galley grease trap was cleaned. Deck-wash water valves were renewed, stabilizers underwent servicing, and through hull valves were replaced. Fresh antifouling coating and Propspeed were applied to the hull and appendages, and the hydraulic opening hull doors serving the gym and spa were comprehensively serviced.

The standout feature galley

The galley aboard CASINO ROYALE will impress professional chefs with its generous scale and high specification: MKN induction stoves with capacity for 18 pots are paired with two MKN ovens, an MKN overhead broiler and an MKN deep fryer to produce immaculate results from intense searing to delicate finishing. Broad, polished worktops provide extensive space for preparation and plating, while plentiful refrigeration and dry stores are positioned nearby to keep every ingredient perfectly organized and within easy reach. Exceptionally thought-out planning, combined with a refined crew mess area, delivers the ideal balance for impeccable guest service and a content, efficient crew.

Three pools

CASINO ROYALE boasts three separate water features designed for relaxation and socialising. A generous pool sits on the aft deck adjacent to the swim platform and beach club, measuring 4,620 mm in length (182 in), 1,890 mm in

width (74 in), with a depth of 840 mm (33 in) and a seat height of 380 mm (15 in). On the owner's deck aft, a sumptuous Jacuzzi hot tub offers heated hydrotherapy and intimate lounging, while a smaller, forward-facing pool on the same deck creates a serene, private retreat for quiet moments.

Helipad

The yacht offers a purpose-built helicopter landing area whose scantlings and layout have been assessed for conformity with Part 7, Chapter 5, Section 6 of the SSC Rules, taking into consideration a maximum takeoff weight ("all up weight") of 4 tonnes. Sleek, folding safety rails have been integrated so they can be stowed discreetly when not required, preserving the deck's refined lines while providing secure operation, and low-profile pad lighting has been fitted though it is not certified.

Other features

A private elevator ensures effortless movement between decks, while full-height glass transom doors open directly onto the beach club and the adjoining fitness and sauna/steam suites, creating a seamless flow to the yacht's leisure and wellness areas. A dedicated massage and spa treatment room further enhances onboard well-being, and the Owner's Deck, located above the Bridge Deck, affords a notably quiet and stable sanctuary. Operational reliability is assured by the Planned Maintenance System "Yacht-In," which keeps systems monitored and maintained to the highest standard.

Tenders and toys

Elevate every moment aboard with a pair of Dariel Custom tenders, each

measuring 7.50 m, designed to deliver rapid yet effortless transfers and graceful coastal exploration. For higher-octane thrills, three WaveRunner Yamaha VX Cruiser HO personal watercraft await, while waterski, kayak and stand-up paddleboard equipment complete a refined selection of on water recreation.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
