DETAILED DESCRIPTION

Dash

The dashboard of this yacht exemplifies both practicality and sophistication, crafted to elevate your nautical adventures with its refined features. Central to the helm are accessory panels featuring illuminated switches and water-resistant DC breakers, ensuring clarity and resilience in any condition. The helm console, custom hand-wrapped and detailed with precise top stitching, radiates luxury and meticulous craftsmanship, creating a tactile and visually stunning command hub.

For those who prioritize accuracy and performance tracking, the dashboard is equipped with a digital hour meter and comprehensive digital instruments, delivering real-time information at your fingertips. The electrical connectors, sealed with triple O-rings, are watertight, protecting the yacht's electrical systems from the elements and ensuring dependable functionality.

Strategically positioned grounding bars in both the bilge and dash areas enhance safety and electrical efficiency. The loom-wrapped wiring not only offers a tidy and organized look but also provides an additional layer of protection to the yacht's electrical framework.

Rounding out the helm's elegant design is a polished spoke steering wheel, offering both style and comfort. The Sea Star hydraulic tilt steering system ensures smooth and responsive maneuvering, facilitating effortless navigation and control. This dashboard is more than just a control center; it is a seamless fusion of technology and artistry, crafted to enhance your yachting journey.

Head

The yacht's head is crafted with both seclusion and functionality in mind,

providing a cozy and efficient area for all your needs. It boasts an enclosed head with a lockable door, guaranteeing privacy and security while aboard. Inside, you'll discover a cleverly arranged space with a hanging rod for easy storage of clothes or towels, helping to maintain order.

The head is brightly lit, offering sufficient illumination for convenient use at any time of day. An opening portlight invites natural light and fresh air, enhancing the overall comfort of the area. For added practicality, the head is fitted with a Porta-Pottie, providing an effective solution for waste management while at sea.

Moreover, a storage rack is available, offering additional space to keep your essentials neatly organized and within reach. This head is more than just a functional necessity; it is a well-designed area that merges utility with thoughtful design, ensuring a delightful experience during your time on the water.

Cockpit

The cockpit of this yacht exemplifies a perfect blend of comfort and practicality, crafted to elevate your time on the water with its selection of high-end features. At the helm, a 32" seat with a flip-up bolster offers both comfort and adaptability, allowing you to easily modify your seating position. The bespoke interior is accentuated by a vinyl-wrapped fiberglass side panel, adding a touch of sophistication to the helm station, which also includes a handy device holder and a DC power outlet for all your charging requirements.

The bow area is just as welcoming, featuring bolster armrests and lounge cushions with generous storage beneath, ideal for tucking away personal belongings. The U-shaped aft lounge seating provides a spacious storage compartment underneath, ensuring all essentials are within easy reach. For those who love to entertain, the built-in insulated cooler under the port aft seating, with a 140-quart capacity and an overboard drain, is paired with a

25-quart carry-on cooler, making it simple to keep drinks chilled.

The cockpit is fitted with a drainage system featuring a self-bailing fiberglass liner, ensuring a dry and comfortable setting. Premium vinyl upholstery with Nano-Block Technology™ ensures both durability and style, while the StarLite seat cushion bases with flow foam deliver outstanding comfort. The reversible oasis lounge on the port seat folds to create an aft-facing seat, enhancing the flexibility of the seating layout.

Entertainment takes center stage with a top-tier sound system that includes four water-resistant speakers, AM/FM/WB, Bluetooth stereo, and aux and USB ports. Stainless steel cupholders and bow rails add a layer of elegance, while the table with side mount bases in both the cockpit and bow, complete with cup holders, is ideal for social gatherings.

Additional amenities include ski and kneeboard storage in the floor, a walk-thru bow with a close-off door, and a wrap-around walk-thru windshield, all designed to enrich your boating experience. With lighting in the cockpit, this area is as functional as it is inviting, making it the perfect venue for both relaxation and entertainment on the water.

Utility

The utility aspects of this yacht are thoughtfully crafted to guarantee both safety and ease, ensuring your time on the water is as pleasant and stress-free as possible. At the forefront is the anchor and rope locker, offering a dedicated space for secure storage. The yacht is fitted with battery trays and a dual battery system with a crossover switch, ensuring dependable power management and redundancy.

An automatic bilge pump is installed to effectively handle any water ingress, while the brass threaded garboard drain plug provides a secure and reliable drainage solution. For easy boarding, both the bow and stern feature stainless

steel four-step boarding ladders, cleverly hidden under hatches to maintain the yacht's sleek lines.

The yacht's construction is robust, featuring a Kevlar-reinforced hull laminate and premium Hydropel resin, offering exceptional durability and performance. This is further supported by a lifetime limited hull warranty, providing peace of mind. The hull is NMMA certified, ensuring it meets the highest standards of safety and quality.

Navigation and docking are simplified with the inclusion of navigation lights and docking lights, while the electric horn ensures you can signal your presence effectively. The fuel tank is designed with dual deck fill plates for convenience during refueling.

Attention to detail is evident in the stainless steel hardware, including large bow and stern eyes, 4-bolt cleats, and flush pull latches, all electro-polished for a pristine finish. The PVC rubrail with a stainless steel insert adds both protection and style. The yacht also features quad-radial lamination, enhancing its structural integrity.

Completing the utility features is the integral swim platform, providing an ideal spot for relaxation or water activities. With these comprehensive utility features, this yacht is not only a vessel of luxury but also a model of practicality and reliability on the water.

Disclaimer

The company offers the particulars of this vessel with sincere intent, aiming to deliver precise and thorough information. Nonetheless, it is crucial to acknowledge that we cannot ensure or certify the accuracy of the details provided, nor can we guarantee the vessel's condition. We highly advise potential buyers to employ their own agents or surveyors to meticulously examine and confirm any specifics they consider essential. This vessel is

available with the understanding that it may be sold, have its price altered, or be removed from the market without prior notice.
