## OVERVIEW

---

This immaculate 2022 Robalo R242, stowed indoors in a climate controlled dry stack, plainly evidences meticulous care and genuine pride of ownership. Designed to satisfy both family day boating and committed anglers, the R242 combines lively, spirited performance with plush, inviting comfort and the refined construction for which Robalo is renowned. Pristine, versatile, and launch ready, this center console powerboat shines as a standout in the offshore bluewater sport fishing and day cruiser category, with premium fit and finish throughout.

# DETAILED DESCRIPTION

---

## Dash/electrical

---

At the helm a thoughtfully engineered electrical suite places a 12V DC receptacle neatly into the dash and ties it to a dedicated 12V wiring buss routed inside the console, while a bilge pump with an automatic switch stands vigilant below to protect the boat. Power management is seamless through a dual battery system with a crossover switch and a Voltage Sensing Relay (VSR), kept charged by a 12/24V 20 amp battery charger (not available with the CE option). Awareness and control come by way of digital gauges, a lighted compass and LED navigation lights, while SeaStar tilt hydraulic steering and a stainless steel steering wheel with a control knob deliver confident, tactile command. Stainless LED electronic push button switches work in concert with water resistant DC breakers for dependable fingertip operation, and tinned copper wiring with waterproof connectors underpins long term reliability. A premium stereo with four speakers — AM/FM/WB, Bluetooth, and an AUX port — sets the soundtrack, while trim tabs with an indicator switch allow precise attitude adjustment and a waterproof wireless charging dock keeps devices powered without a cord.

## Console

---

An aluminum framed glass windshield crowned with a stainless steel grab rail gives the console a refined presence, and the console opens from the forward side through a hinged fiberglass door into a head compartment appointed with a fiberglass pan and non skid surfaces. Inside, an opening portlight with a screen provides ventilation while a Porta Pottie delivers welcome convenience for extended days on the water. The forward console seat with a bolster invites an easy pause, and an integrated footrest with storage keeps essentials tidy

and close at hand. On top of the console drained storage secures quick reach items, and stainless steel grab rails and two stainless steel drink holders add poise and comfort to every passage.

## Utility

---

Purpose driven utility defines the build: an electric Lewmar stainless steel windlass feeds a bow anchor rope and chain locker and runs fair over a high polished stainless steel bow roller and a stainless steel bow scuff plate. Angling systems include a brass high speed livewell thru hull and a sea water strainer system, complemented by raw water washdown with a hose connector and a freshwater shower for effortless cleanup. Under the skin, a fiberglass structural system pairs with a Kevlar reinforced hull, Hydro Lift™ multi angle hull design, poured composite transom coring, and powder coated aluminum transom trim—confidence underscored by a limited lifetime hull warranty and NMMA certification. Safety and serviceability come by way of encapsulated reserve flotation, a fuel/water separator, an electric horn, a garboard drain, stainless steel thru hull fittings, and a storage compartment in the bilge area. A heavy duty rubrail with a stainless steel insert, stainless steel bow rails with backing plates, stainless steel bow and stern eyes, and stainless steel pull up cleats with the Robalo logo complete the hardware suite. Boarding is easy with a three step telescoping ladder with a handle, and when the day is done, protection comes from a full boat cover, console cover, rear bench cover, and cowling covers.

## Cockpit

---

The cockpit is crafted for versatility and poise: aft, an insulated transom fish box of 27 gallons drains overboard, while twin bow insulated fish boxes of 30 gallons each also drain overboard to keep the deck dry. Up front, the bow

casting platform elegantly converts to U shaped seating via a removable RTM fiberglass filler, supported by removable bow cushions and a bow floor storage compartment with a fiberglass lid. Live bait is catered for by a bow insulated livewell of 20 gallons with LED lighting and an adjustable flow valve, complemented by a port aft insulated livewell of 20 gallons with LED lighting, a blue gelcoat finish, and an adjustable flow valve. Comfort and control are enhanced by cockpit coaming bolsters, stainless steel cockpit grab rails, blue LED courtesy lights, and premium stain resistant silicone cockpit fabric. The leaning post features dual flip up bolsters, a backrest, four rod holders, and a 70 quart cooler, while horizontal rod storage under the gunwale runs port and starboard. Molded gunnel inserts with a stainless steel toe rail add secure footing, and a full transom seat folds flush into the transom wall with a protective cover. Practicality abounds: a self bailing cockpit with integrated drain fittings, RTM fiberglass lids, stainless steel friction hinges on molded hatches, four stainless steel rod holders mounted in the deck gunnels, two stainless steel drink holders, an oversized battery and pump compartment in the transom, and a walk thru transom door to complete the flow.

## Disclaimer

---

The Company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his agents, or his surveyors, to investigate such details as the buyer desires validated. This vessel is offered subject to prior sale, price change, or withdrawal without notice.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
