DETAILED DESCRIPTION

Section name

The Manufacturer Provided Description vividly illustrates a yacht crafted for memorable weekends on the water. The cockpit is a masterpiece of open-concept U-shaped seating, blending comfort with elegance. Ample storage keeps everything organized, while the enclosed head is a delightful feature for extended voyages. For those desiring a modern touch, the standard dashboard can be enhanced with an optional 7" Medallion color touchscreen. The yacht's striking graphics span its 24-foot centerline, accentuated by a standard black or white Folding Arch Tower that adds a high-performance flair. The dashboard exemplifies meticulous design, with panels featuring dual illuminated LED switches and water-resistant DC breakers. The custom-molded fiberglass dash is embellished with hand-stitched upholstery and includes a DC power outlet at the helm. The digital helm package offers four modes: Cruise, Ski, Eco, and Docking, all presented with digital instruments and chrome bezels. The helm is fitted with a stereo remote, and the iNR System (Intelligent Neutral and Reverse) ensures seamless operation. The steering wheel, available in black, is tilt-adjustable for enhanced comfort.

In the head, there is an enclosed storage area with a lockable door, a fiberglass floor liner, and foam-backed hullside material. The space is well-lit and features a mildew-resistant acoustic liner, ensuring a pleasant atmosphere.

The cockpit is crafted for both leisure and practicality, with aft hinged transom seats featuring a central walk-through and storage beneath. Bow cushions are hinged with compartments below, and a bow rider filler cushion has dedicated storage. The cockpit layout includes U-shaped seating with a single helm bucket seat that slides and swivels, adorned with logo badging. The port seat is a reversible oasis lounge that folds to provide an aft-facing seat. A cockpit table

with bases in both the cockpit and on the swim platform adds versatility. Interior color options include vibrant choices like Biscayne Blue, Fire Red, Lime Green, Yellow, Stealth Gray, or Electric Blue. The premium sound system features AM/FM Bluetooth, a USB port, remote control, and display, compatible with Sirius Satellite.

Utility features are robust, with 100% Perma Panel marine coring, a dual battery setup with a parallel switch, and an automatic bilge pump. The Delta V Plane hull design, reinforced with Kevlar, comes with a lifetime limited hull warranty. The yacht is NMMA certified, ensuring quality and safety. The integrated swim platform, pressure water system with a stainless steel transom shower, and stainless steel hardware, including bow and stern eyes, ski eye, and pull-up cleats, enhance the vessel's functionality. The yacht is equipped with a three-blade stainless steel impeller and a stainless steel, three-step boarding ladder with an integrated handle concealed under a molded lid, ensuring ease of access and operation.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.
