DETAILED DESCRIPTION

Section name

The Crevalle 26 HCO is an exceptional craft that enhances the cherished attributes of the Crevalle 24 HCO, providing additional space, upgraded features, and more power. This boat is crafted for those who value the adaptability of a center console, making it ideal for both dedicated anglers and families in search of aquatic adventures. With its increased capacity, you can bring more friends along for the ride, ensuring everyone shares in the excitement. Whether you're cruising through rivers, discovering lakes, or setting off on inshore or offshore fishing expeditions, the Crevalle 26 HCO offers impeccable performance. Its design effortlessly combines the technical expertise necessary for a successful fishing trip with the comfort and versatility needed for a family day out. Relish the journey as you explore further, confident that this vessel is ready to tackle any challenges the water may present.

Hull & deck

The hull and deck of the Crevalle 26 HCO are meticulously engineered with cutting-edge techniques, resulting in a vessel that is both sturdy and dependable. This boat is constructed without wood, enhancing its durability and lifespan, while the epoxy-coated fuel tanks offer additional security. Utilizing the Crevalle Resin Infusion Manufacturing Process (CRIMP), the boat boasts exceptional build quality, supported by a 10-year transferable hull warranty. Its visual appeal is elevated by the choice of black or white rub rails with stainless steel inserts, and the composite transom further reinforces its structural strength.

For added convenience and functionality, the boat features a dedicated anchor locker and position control hinges on all hatches, with fiberglass hatches finished on both sides. It holds NMMA certification in accordance with ABYC standards, ensuring it meets industry safety and quality criteria. The self-bailing cockpit and forged stainless steel thru-hulls with duckbill and ball valves contribute to a secure and efficient design. The standard 6-inch engine jack plate, paired with a notched transom, enables the boat to quickly plane in shallow waters without propeller cavitation.

Marelon seacocks, made from composite material, prevent corrosion and electrolysis, while anti-Venturi thru-hull fittings allow pumps to function effectively at speed. Concealed deck drains with stainless covers and duckbill valves, along with welded one-piece stern eyes, ensure a sleek and practical design. The deep cockpit offers a secure, dry ride, enhanced by the yacht grip non-skid deck for additional safety.

The setback transom provides a full aft deck, and under-gunwale rod storage accommodates three 8-foot rods on each side. Forward lockable rod storage can hold ten 7-foot-6-inch rods, and a 40-inch wide flip-up aft seat on the centerline boosts safety. Bow dry storage, along with one removable 65-quart and one 72-quart cooler, offers ample space for equipment and refreshments. The boat is fitted with six custom Crevalle pull-up cleats and eight standard cup holders for added convenience.

Port and starboard in-gunwale safety gear storage, a 12-inch multifunction display, and floor storage for a 5-gallon bucket enhance the vessel's practicality. The custom fiberglass leaning post includes a backrest, rigging tray, tackle storage, sink, glove boxes, removable cooler, cup holders, and rod holders, offering a comprehensive solution for fishing enthusiasts. The unobstructed aft fishing deck and pre-wired 8 AWG wiring for a trolling motor, along with a trolling motor plug panel, elevate the fishing experience.

Forward grab rails, an automatic/manual bilge pump, and a high water bilge

pump ensure safety and ease of use. The fresh water transom shower, fuel water separator, and Wet Sounds speakers enhance comfort and enjoyment on board. Finally, the Lenco trim tabs, complete with LED indicators, offer precise control and stability, making the Crevalle 26 HCO an outstanding vessel.

Release wells

The Crevalle 26 HCO features cutting-edge release wells tailored to satisfy the demands of dedicated fishermen. These insulated 28-gallon aft wells are crafted for peak efficiency, equipped with a Venturi aeration bubbler and dual jets to maintain a steady stream of oxygenated water. The commercial-grade aquarium aeration system, paired with an 800 gallons per hour pump, ensures a thriving environment for your catch. The blue gel coat not only adds sophistication but also improves the visibility of fish inside the wells.

A safeguarded overflow stand pipe keeps water levels stable, preventing any accidental spills. The intake plumbing is meticulously designed to maintain water levels even when the boat is moving at speed, ensuring your live bait and catch stay in optimal condition. LED lighting within the wells offers superb visibility, enabling you to check on your catch at any time, whether day or night. With these sophisticated features, the release wells on the Crevalle 26 HCO provide an ideal combination of practicality and elegance, making them indispensable for any fishing adventure.

Bait well

The Crevalle 26 HCO is equipped with a multifunctional bait well crafted to elevate your fishing endeavors. This bait well includes an adjustable aeration jet that can be closed, converting the well into a fully insulated cooler, offering adaptable storage solutions. Its wide opening is tailored for seamless use with

a cast net, allowing you to gather bait efficiently and effortlessly. The side-mounted overflow fitting, featuring a removable filter dome, removes the need for a stand pipe, providing clear access when collecting bait.

The interior is adorned with a blue gel coat, adding a stylish flair while enhancing visibility inside the well. The gasketed lids of the live well ensure a tight seal, preserving the ideal conditions for your live bait. With these carefully considered features, the bait well on the Crevalle 26 HCO perfectly marries practicality with ease of use, making it an indispensable tool for any fishing enthusiast.

Helm

The helm of the Crevalle 26 HCO is crafted with a focus on both practicality and elegance, offering an array of features that elevate the boating experience. You have the option to select a colored gelcoat helm face to reduce secondary glare, ensuring clear visibility in any condition. Outfitted with a single 12-inch multifunction display, with the possibility of adding a second, it delivers comprehensive navigation and engine information without the clutter of traditional gauges. A premium stainless steel steering wheel with a power knob provides precise handling, while dual-height nonskid footrests offer comfort on extended trips.

Safety and ease of use are emphasized with a welded 316 stainless steel console grab rail and a portside helm door for straightforward access. The helm includes a compass for navigation, a dual-tone stainless horn for signaling, and backlit switch labels for easy operation in dim lighting. The console door is equipped with a trash bag holder, and individual circuit breakers ensure dependable electrical management. LED lighting in storage areas and the bilge improves visibility, while the Black Box Bluetooth-ready stereo provides entertainment options.

The helm integrates engine data into the electronic options, allowing for

seamless performance monitoring. Steering is available in both hydraulic and electronic versions, with a tilt helm for enhanced comfort. The helm panel is equipped with ring-lit switches and backlit function labels, ensuring all controls are easily accessible and visible. With these sophisticated features, the helm of the Crevalle 26 HCO offers an ideal combination of technology, safety, and comfort, making it a vital part of this outstanding vessel.

Technical standards

The Crevalle 26 HCO is crafted to meet the highest technical standards, guaranteeing dependable performance on the water. Its electrical system incorporates tinned copper wiring, known for its excellent resistance to corrosion and extended lifespan. LED lighting is strategically placed throughout the cockpit, with options for blue or white light, enhancing both visibility and atmosphere. The use of Deutsch water-resistant connectors on harnesses ensures robust and lasting connections, while sealed bussbars and heat shrink terminals offer additional protection to the electrical components against the challenging marine environment.

In place of conventional fuses, the Crevalle 26 HCO utilizes circuit breakers, providing a more reliable and easily resettable method for electrical safeguarding. The 8 AWG trolling motor harness is engineered to meet the demands of contemporary trolling motors, ensuring efficient power distribution. A dual battery switch mounted at the helm facilitates smooth management of the vessel's power system, ensuring you have the necessary energy for your journeys.

LED navigation lights are included to ensure safe and efficient travel, while premium battery hold-down trays keep the batteries securely in place, even in turbulent conditions. With these sophisticated technical standards, the Crevalle 26 HCO delivers a sturdy and reliable platform for all your boating adventures, seamlessly blending advanced technology with practical design.

Upholstery

The Crevalle 26 HCO features bespoke upholstery that seamlessly blends elegance, comfort, and resilience, transforming every voyage into a lavish experience. The seats and cushions are expertly shaped to offer ergonomic support, ensuring passengers remain at ease even on long journeys. The upholstery is adorned with subtle color accents and refined top stitching, adding an air of sophistication and grace to the overall design. Heat-reflective vinyl is used to keep surfaces cool under the sun, while multi-density foam provides exceptional durability and comfort, conforming to the body's shape for an ideal fit.

The forward helm seating and leaning post cushions are also thoughtfully contoured, delivering extra support and comfort for both the captain and crew. This meticulous attention to detail in the design and materials of the upholstery not only enhances the visual allure of the Crevalle 26 HCO but also ensures it withstands the challenges of marine environments. With these attributes, the upholstery on the Crevalle 26 HCO offers an exquisite combination of luxury and functionality, making it a perfect choice for those who appreciate both style and practicality.

Additional features

The Crevalle 26 HCO comes with a variety of extra features that boost its functionality and comfort, making it an exceptional option for boating enthusiasts. A standout feature is the Minn-Kota Ulterra trolling motor with auto-deploy, which ensures effortless operation and precise control, allowing you to concentrate on the excitement of fishing without the need for manual adjustments. Complementing this is the Sea Star Jack Plate, which allows for optimal engine height adjustment, enhancing performance and efficiency for a smooth and responsive ride in diverse water conditions.

For those who love spending time on the aft deck, the Crevalle 26 HCO includes a sun-shade, providing protection from the sun and creating a cozy space to unwind and enjoy the surroundings. Additionally, a mooring cover is included, ensuring your vessel is shielded from the elements when not in use, maintaining its immaculate condition.

These carefully integrated additional features not only elevate the overall boating experience but also highlight the Crevalle 26 HCO's dedication to quality and innovation, making it a perfect choice for those seeking both adventure and comfort on the water.
