OVERVIEW

The 2004 Contender 25T is a purpose-built center-console that marries high-performance design with bluewater capability, conceived for offshore sportfishing and long coastal runs. Propelled by twin 2022 Mercury 225s showing just 111 hours, she offers instant throttle response, confident cruise speeds, and economical operation. Her 8'6" beam opens a generous working platform while the sharp 24.5° deadrise provides a deep V ride that soaks up offshore seas and yields pinpoint handling uncommon in this size range. Delivered turnkey and freshly refreshed, she arrives tournament-ready for serious sportfishing yet equally suited to day cruising and coastal excursions, with a Continental aluminum trailer included for effortless overland transport.

Recent Upgrades

Fresh Awlgrip Whisper Gray hull with Matterhorn White cap and liner

New 170-gallon aluminum fuel tank (single center tank)

New switch panel

Continental aluminum trailer included

DETAILED DESCRIPTION

Hull & deck

Finished in a fresh Awlgrip Whisper Grey, the hull sets a sophisticated tone against a Matterhorn White cap and liner, all atop robust fiberglass construction engineered for years of service. A new aluminum 170 gallon single center fuel tank extends your range with confidence, while a new switch panel brings crisp, intuitive control to every outing. With a 24.5° deadrise that carves through chop for a remarkably smooth ride, this platform delivers poised performance and enduring elegance from waterline to rub rail.

Console

Command with clarity from a Mercury 7" gauge display, settled into a console that blends ergonomics and utility. Lebrun dual seats and a powder-coated leaning post provide superb support whether running offshore or idling the flats, while an integrated tackle station keeps gear organized and at hand. The walk-in console with head compartment adds welcome privacy, complemented by a large bi-fold, lockable electronics storage and additional lockable storage under the console to safeguard your valuables and vital systems.

Navigation systems

Navigate with precision via a Garmin 16" display, paired to a Garmin VHF with a 6' antenna for crisp communication and confident reach. This streamlined suite delivers reliable situational awareness from the run out to the ride home.

Fishing equipment & accessories

Purpose-built for the hunt, the boat carries carbon fiber outriggers that deploy light and rigid, while port and starboard Hubbell electric well plugs provide dependable power where you need it. A single Tournament Series livewell circulating pump (800 GPH) keeps bait lively and ready, turning opportunity into action the moment the bite ignites.

Electronics

Illuminate the run with a crisp LED light bar and set the soundtrack with a JBL 10" sub paired to four 8.8" JBL speakers driven by two JBL 1300 watt amps. Two underwater lights in white/blue add an alluring glow at the dock and on the drift, extending the experience well past sunset.

Power & performance

Twin Mercury 225 HP 2022 outboards with 111 hours deliver confident thrust and refined manners, sipping gas/petrol with the efficiency modern Mercury power is known for. An in-hull transducer 4k hi/low chip (Airmar) feeds clean returns to your screens, while two 1500-gallon Rule bilge pumps stand guard below. Control is sharpened by one new Lenco trim tab actuator, and reserves run deep with four Mag batteries supported by two battery chargers, keeping every system ready at a moment's notice.

Trailer

A Continental aluminum trailer stands ready to roll, marrying lightweight strength with corrosion resistance for effortless hauls to your next launch.
