## OVERVIEW

---

ISA Yachts is delighted to announce the initiation of construction on hull #3 of its prestigious 80-metre "Continental" line. This venture is being developed on speculation, with delivery anticipated in the first quarter of 2028.

This marks the third 80-metre yacht currently being built at the Ancona shipyard, with the first two units already sold and slated for delivery in 2026 and 2027, respectively.

The first four blocks have been successfully put together, and construction will continue until the hull is fully completed.

The ISA CONTINENTAL 80 is a breathtaking architectural marvel, crafted from steel and aluminium, showcasing balanced proportions and elegant lines. Its exterior is highlighted by striking, angular windows that provide stunning panoramic views from all main indoor areas.

A distinctive feature of this yacht is the terraces in the central section; particularly, the terrace on the Upper Deck resembles a genuine balcony, allowing natural light to illuminate the living space.

Other significant areas, such as the gym in the Sky-lounge and the lounges on both the Upper and Main Deck, are equally well-lit. A hallmark of this yacht is the infinity pool at the stern. Its rectangular shape spans the deck's width and is characterized by an aft wall composed of two glass panels, with water cascading elegantly between them.

This ingeniously designed pool offers ample room for large sunpads and lounging, effectively turning this part of the Main Deck into an extension of the beach area, accessible via a staircase. The Upper Deck is a dedicated owner's sanctuary, featuring lounge and living areas at the back and the master suite at the front.

Moreover, the yacht is equipped with a touch-and-go landing, providing direct

access to the owner's quarters for maximum privacy.

The opulent interiors will include 7 cabins, accommodating up to 12 guests, supported by a crew of 19 housed in 10 cabins. Powered by two MTU 16V4000M63L engines, this yacht can reach a top speed of 17 knots and a cruising speed of 12 knots, with an impressive range of 6200 nautical miles. Explore yacht sales at the current boat location and seize the chance to acquire a yacht that embodies elegance and sophistication.

## Isa Continental 80

---

ISA Yachts is excited to reveal the start of construction on hull #3 of its cutting-edge 80-metre "Continental" series, with delivery expected in the first quarter of 2028. This speculative project represents the third 80-metre hull currently under construction at the Ancona shipyard, with the first two units already sold and set for delivery in 2026 and 2027, respectively. The first four blocks have been put together, and construction will proceed until the hull is fully completed.

The ISA Continental 80 is an architectural marvel, crafted from steel and aluminium, showcasing harmonious proportions and sleek lines. Its exterior is highlighted by squared and precise windows, providing breathtaking panoramic views from all main indoor spaces. A standout feature of this yacht is the terraces in the central section, especially the one on the Upper Deck, which resembles a genuine balcony and allows more light to illuminate the living area.

Strategically designed spaces such as the gym in the Sky-lounge and the lounges on both the Upper and Main Deck are also well-lit. A signature element of this yacht is the infinity pool at the stern, with its rectangular design spanning the width of the deck. It is distinguished by an aft wall made of two glass panels, with water gracefully cascading between them. This design leaves ample space for large sunpads and lounging, effectively transforming this part of the Main Deck into an extension of the beach area, accessible via a staircase. The Upper Deck is a dedicated owner's retreat, featuring lounge and living areas at the rear and the master suite at the front.

Equipped with a touch-and-go landing, the yacht provides direct access to the owner's quarters for maximum privacy. The interiors, crafted by Luca Dini

Design & Architecture, will feature seven cabins accommodating up to 12 guests, supported by 19 crew members housed in 10 cabins. The yacht is powered by two MTU 16V4000M63L engines, capable of reaching a top speed of 17 knots and a cruising speed of 12 knots, with an impressive range of 6200 nautical miles.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
