OVERVIEW

Launched by Oceanco in 2007 and extensively refitted in 2024, the multi-award-winning superyacht ALFA NERO remains one of the most instantly recognizable vessels at sea. Conceived by a discerning owner to unite bold aesthetics, advanced engineering and uncompromising comfort, this bespoke motor yacht set a new benchmark for the industry. With exterior lines penned by Nuvolari Lenard and an elegant interior by Alberto Pinto, many of the innovations first seen aboard have become standard on today's large yachts. Her profile is unmistakable: an obsidian steel hull beneath a light superstructure, a low stern and taut, minimal overhangs that intentionally depart from convention. Measuring 82 m (266') overall and offering approximately 1,250 m² (13,455 ft²) of interior living space, she pairs impressive volume with refined, well-balanced proportions.

The aft deck is the defining stage of the yacht. ALFA NERO introduced an aft infinity pool with a glass waterfall wall; when the pool is drained, its floor rises to become flush with the deck, instantly transforming the area into a vast open-air lounge and an expansive event terrace. A full wet bar, generous banquette seating and plentiful space for alfresco dining complete the picture—equally suited to grand entertaining, intimate evenings or long-range bluewater cruising as a flagship superyacht.

SPECIFICATIONS

Basic Information

Category:
Motor yachts

Year Built:
2007
