OVERVIEW

27 ft 2018 Sea Chaser 27 HFC, "Hammer Down"

Refined for long-range offshore work yet polished for comfortable days with family, this 2018 Sea Chaser 27 HFC—known as "Hammer Down"—melds tournament-capable sportfishing with the creature comforts of a premium dayboat. The boat rides on a 2025 10,000-lb dual-axle trailer that is included with the sale, and the vessel is currently kept on that trailer in a secure yard, making both inspection and transport straightforward. At the helm, twin Garmin 18" XSV multifunction displays are complemented by a Garmin 24" radar for crisp charting, radar coverage, and fish-finding ability, while factory-installed outriggers expand your trolling spread for productive offshore work. Propulsion comes from twin Suzuki 200 HP outboards that deliver confident performance and attractive fuel economy, giving the craft the range and responsiveness required for long runs and quick dashes alike.

Presented turnkey and fastidiously cared for, "Hammer Down" has just undergone its 500-hour service so engine maintenance is current and the boat is ready for the season. The cockpit is engineered around fishing efficiency: dual livewells keep bait lively, multiple insulated fish boxes preserve the day's catch, and thoughtfully arranged tackle storage keeps lines, rigs, and gear organized and within reach. The hull is engineered to provide a composed, dry ride—a defining characteristic of a seaworthy saltwater powerboat built for bluewater pursuits, competitive tournament duty, and relaxed weekend cruises.

When the mission shifts from chasing pelagics to leisurely cruising, the 27 HFC reveals its comfortable side with gracious forward seating that invites conversation whether at anchor or on the move. A conveniently located wet bar simplifies serving drinks and snacks, and fold-down cockpit seating unfolds for extra passenger room then stows away to leave an open working deck

when needed. A side dive door eases boarding from the dock or after a swim, enhancing safety and convenience for divers, snorkelers, and children. Quality materials, smart ergonomics, and clean finishes complete a package that feels upscale without sacrificing rugged readiness.

Blending the heart of a sportfisher with the ease of a family cruiser, this center console is equally at home chasing offshore targets at first light and slipping into a protected sandbar by afternoon. Whether planning a tournament day or a sun-drenched escape, "Hammer Down" is an elegant, capable, and efficient companion that does it all.

DETAILED DESCRIPTION

Manufacturer provided description

For over thirty years, Carolina Skiff has pursued a singular standard of excellence, and that commitment shines in the Sea Chaser series and the all new Hybrid Fish & Cruise (HFC)—a genuinely revolutionary design engineered from the keel up for devoted anglers and active families alike. This versatile platform arrives richly appointed with heavy duty stainless steel fold down cleats, under gunwale LED lighting, a stainless steel anchor chock, windlass ready anchor storage, an in floor, fully insulated lockable fish box, a built in lifting eye, illuminated stainless steel LED cup holders, a tilt steering wheel, and a digital Command Link Plus interface, to name only a few. Whether your day calls for hardcore fishing or unhurried family time on the water, the HFC's adaptability rises to every occasion and fulfills every expectation.

Standard features

Every detail of the HFC underscores capability and comfort, beginning with 100% composite construction and NMMA/ABYC certification, a quick lift high performance step hull, a self bailing deck, and stainless steel through hull drains that inspire confidence offshore. The bow carries a powder coated steel low profile bow rail and cushioned bow and side bolster pads, while patented LED bow navigation lights are cleanly integrated into the rub rail. An inviting bow U shape seating area conceals a generous 400 quart storage capacity beneath deluxe, removable cushions, complemented by a removable bow table and an in floor bow fish box rated at 208 quarts with a macerator pump. Anchoring is effortless thanks to a stainless steel anchor chock with roller, dedicated bow anchor rope storage with a lifting eye, and a

full windlass anchor system.

Anglers are rewarded with gunwale mounted rod storage with coaming pads, gunwale mounted stainless steel rod holders and a total of 19 stainless steel rod holders distributed throughout the boat. Live bait management is exceptional: aft, a 30 gallon baitwell features a recirculating system and LED light; the leaning post integrates a 40 gallon baitwell with tackle trays, its own recirculating system, and LED illumination; and Max Air aeration is fitted to all wells. At the helm, a fiberglass console with side entry houses an electric flushing head, while the driver enjoys hydraulic steering with a tilt helm, a stainless steel Power Grip steering wheel, a motor matched digital gauge package, and an LED lit flush mount compass. A console footrest with glove box and utility pocket adds practical convenience, as do blue/white LED courtesy lights and LED lighting within storage compartments, plus an LED stern light for clear visibility after dusk.

Entertainment and electronics are thoughtfully integrated: a powder coated T top provides blue/white LED lighting and stereo speakers, with a molded in electronics box overhead. The Infinity AM/FM stereo with Bluetooth/USB/Aux inputs drives four marine grade speakers, and in gunwale stereo speakers envelop the cockpit in rich sound. Comfort and access abound with a swim platform with boarding ladder and a telescopic fold up boarding ladder, a port side entry door, a fold away bench seat ahead of the console, and rear bench seating with two fold away bench seats. Smart storage solutions include a starboard side rear cabinet with tackle storage and knife holders, a forward starboard bow cabinet with tackle storage and a storage drawer, and a forward port side bow cabinet with storage drawers and a shelf. High pressure washdown with a retractable hose reel and a freshwater washdown with a pull up shower wand make cleanup easy, while safety essentials such as an electric lift bilge access compartment and a fire extinguisher come standard. Finishing touches include six stainless steel

lighted cup holders with blue LED illumination and six heavy duty stainless steel fold down cleats, ensuring the HFC is as refined as it is ready.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
