OVERVIEW

The quoted current price is provided for guidance only; all bona fide offers will be given respectful consideration. The 1997 Sea Ray 270 Sundancer exemplifies timeless express-cruiser elegance, pairing a streamlined fiberglass hull with assured, seaworthy manners that appeal to the discerning powerboater. Within, a well-conceived mid-cabin plan welcomes relaxed weekend escapes or extended coastal runs with accommodations that thoughtfully balance comfort and refinement. Power comes from a robust 7.4L MerCruiser, delivering the dependable performance that has become synonymous with the marque. A cockpit fashioned for conviviality and ease of operation includes transom seating, an integrated swim platform, a cockpit table and a full camper canvas enclosure, creating a sophisticated sport-cruiser atmosphere that transitions easily from leisurely afternoons at anchor to purposeful underway passages. Reported freshwater use and attentive ownership contribute to an impressive presentation for a vessel of this vintage, underscoring the model's lasting construction quality. Included in the sale is a 2005 LoadRite aluminum bunk trailer on a double-axle frame, an asset that enhances mobility and storage practicality for owners valuing convenience and readiness for adventure; this LoadRite bunk configuration is well matched to the size and weight of this express cruiser, and alternative trailer options may be sourced through affiliated outlets subject to availability. Nationwide transport can be coordinated via certified marine logistics providers, with custom cradles available and arrangements possible to domestic ports for onward international shipment—please request a quote and coordination details. Refer to the Motors and Machinery Disclaimer for specifics regarding propulsion and onboard systems; no representation can be made as to the condition of the engine(s), mechanical components or machinery of any kind. Photographs of the engine compartment and related equipment can be supplied, but it remains the buyer's responsibility to inspect and verify actual
