OVERVIEW

The Blackwood name is synonymous with quiet sophistication, and this 27' Offshore center console is a graceful example of that pedigree. Clean, contemporary lines meet upscale appointments—upgraded, pillow soft upholstery set against a striking Sky Blue hull and cream seating—each surface and stitch revealing the kind of meticulous craftsmanship that imparts a true yacht level ambiance.

Beneath the styling, a performance modified V hull has been tuned to run fast and true offshore while remaining composed in wind blown inshore chop, yielding a confident, dry, athletic ride whether you are chasing tuna on the edge or enjoying a family cruise around the bay. The low freeboard and weight conscious construction allow the twin Yamaha 300s to leap onto plane and cover ground with alacrity, while trim tabs deliver a perfect running attitude and a 130 gallon fuel capacity provides the range to comfortably reach most West Coast Florida grounds. With a shallow 20 inch draft the boat slips across skinny flats even on breezy days, and an automatic trolling motor setup gives effortless, precise positioning when the bite or the scenery demands it.

Anglers will appreciate tournament ready functionality woven into the layout: dual macerated fish boxes and three livewells for versatile catch and bait management, plus an expansive bow casting deck crafted for long days on the rod. Comfort and practicality are addressed by an enclosed head with sink and countertop, twin swim ladders flanking the platform for easy reboarding, and a Kevlar reinforced bottom that adds exceptional rigidity and puncture resistance.

Electronics and propulsion are equally considered: twin Simrad hybrid control MFDs provide depth/sonar, GPS charting and HD radar for confident navigation and fish finding, accompanied by a Fusion Bluetooth stereo for

modern, crisp onboard audio. Power comes from twin Yamaha F300s showing just 475 hours with recent service for dependable performance.

Backed by Blackwood's limited lifetime hull warranty, this 27' Offshore functions as a refined dayboat, a bluewater sportfishing platform, and a capable yacht tender in one—an outstanding choice for buyers seeking a high end center console, offshore sportfish, or a family friendly fishing yacht whose polish matches its performance.

DETAILED DESCRIPTION

Luxury console w/ custom dash panels

Command from a luxury console finished with custom dash panels that frame a Fusion marine stereo powering a tuned speaker array—four 7-inch, two 8-inch, and two 10-inch speakers—for full-range, open-water sound. Tactile push-button switches give instant control, while an in-console head adds welcome privacy for extended runs. Blackwood coaming pads and a matching helm pad cushion every encounter with the sea, and both fresh- and raw-water washdowns keep the cockpit pristine after the action.

Electronics and helm details

At the helm, dual Simrad MR12 ev3 multifunction displays integrate GPS navigation, chartplotting, radar, and fishfinding, working in concert with a Simrad dome radar and a Simrad marine VHF radio. A Yamaha digital display pairs with Yamaha shift and throttle controls for seamless engine management, while a Lenco trim tab control fine-tunes attitude. Hydraulic tilt steering capped with a stainless-steel wheel delivers confident, precise handling.

Custom fiberglass hard top

The custom fiberglass hard top casts cool shade and consolidates serious fishability with seven rod holders, two forward and two aft spreader lights, four overhead blue accent lights, and two docking lights for confident approaches at dusk.

Luxury helm seating

Settle into plush helm seating that supports long days with folding armrests and flip-up bolsters, shifting effortlessly from a relaxed seated position to secure, elevated leaning support when seas rise.

Tournament fishing features

Purpose-built for competition, the cockpit carries under-gunnel rod storage and eight stainless flush-mount rod holders. Two tournament livewells are fed by high-speed pickups with overflows and feature a recirculating aerating system to keep bait lively, while two fish boxes with macerators make clean work of the catch. After sunset, Shadow Caster underwater blue lights extend the day in vivid color.

Performance package

The performance package sharpens every response with tilt-helm power steering or electric steering, a triple-bank battery charger to keep the system topped and ready, and stainless-steel propellers that translate horsepower into clean, efficient thrust.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
