# OVERVIEW

---

"CURRENT PRICE" IS A GUIDE. ALL OFFERS RESPECTFULLY CONSIDERED.

## GENERAL OVERVIEW

Discover reliable power and efficiency with the OEM Mercury 4.6L V8 300HP SeaPro AMS engine. Crafted for commercial applications, the SeaPro Advanced MidSection (AMS) offers enhanced durability, quieter operation, and smoother performance. Ideal for repowering or upgrading, Mercury performs exceptionally in both saltwater and freshwater settings.

## ACTUAL CONDITION

Take advantage of the chance to acquire an OEM PCM DTS module, originally taken from a new Mercury 4.6L 300 Sea Pro outboard! This part was removed because a service yard decided it wouldn't be covered under warranty, choosing to replace it with a new one as a precaution. The previous owner reported it was functional at the time of removal.

This is a fantastic opportunity for marine technicians, repair shops, or savvy buyers to obtain a potentially working PCM at a lower cost!

### Important Note:

This module is untested and sold AS-IS, WHERE-IS, with no guarantees, warranties, or returns.

If you're knowledgeable and willing to take a calculated risk, this could be a valuable find. These modules are rare and highly sought after—don't let this opportunity slip away!
