# OVERVIEW

---

"CURRENT PRICE" IS A GUIDE. ALL OFFERS RESPECTFULLY CONSIDERED.

## GENERAL OVERVIEW

Experience dependable power and efficiency with the OEM Mercury 4.6L V8 300HP SeaPro AMS engine. Designed for commercial use, the SeaPro Advanced MidSection (AMS) ensures increased durability, quieter operation, and smoother performance. Perfect for repowering or upgrading, Mercury excels in both saltwater and freshwater environments.

## ACTUAL CONDITION

Seize the opportunity to acquire an OEM PCM DTS module, originally extracted from a new Mercury 4.6L 300 Sea Pro outboard! This component was removed because a service yard decided it wouldn't be covered under warranty, opting to replace it with a new one as a precaution. The previous owner reported it was operational at the time of removal.

This presents a great chance for marine technicians, repair shops, or savvy buyers to obtain a potentially functional PCM at a reduced cost!

### Important Note:

This module is untested and sold AS-IS, WHERE-IS, with no guarantees, warranties, or returns.

If you're knowledgeable and willing to take a calculated risk, this could be a valuable find. These modules are scarce and highly sought after—don't let this opportunity pass by!

## EQUIPMENT

A trailer is not included in this sale.
