# DETAILED DESCRIPTION

---

## Electronics

---

A confident helm begins with a complete electronics suite: a precise depthsounder and log speedometer feed real time data to an integrated navigation center anchored by a crisp plotter and satellite navigation, while a reliable compass keeps bearings true. Clear VHF communication and a quality radio broaden your reach, and cockpit speakers bring rich sound to every anchorage, rounding out a system designed for clarity, safety, and pleasure underway.

## Inside equipment

---

Comfort and capability meet below with an electric bilge pump for assured dewatering and a well appointed enclosed marine head featuring electric operation for effortless convenience. A compact refrigerator keeps provisions perfectly chilled, while the onboard battery charger maintains your reserves, so every outing begins ready for the day.

## Electrical equipment

---

A shore power inlet connects seamlessly at the dock, keeping onboard systems supplied and your batteries topped up so the yacht is as effortless to keep as she is to enjoy.

## Outside equipment/extras

---

Entertaining flows naturally with a freshwater cockpit shower for an easy rinse after a swim, plush cockpit cushions that invite conversation, and a sturdy

cockpit table that turns every stop into an occasion. The swim ladder offers quick, confident reboarding, making the water your favorite room on board.

## Covers

---

A bimini top casts cool shade when the sun is high, while a fitted cockpit cover keeps the upholstery pristine between adventures.

## Seller description

---

This one owner Sea Ray 300 SLX is poised for effortless cruising. Efficient twin MerCruiser 350 MAG engines turn dual prop Bravo 3 sterndrives, while intuitive joystick controls make close quarters maneuvering elegantly simple and the overall experience remarkably approachable and rewarding. A luxurious cockpit, inviting bow, and expansive sun pad set the stage for easygoing entertainment, complemented by a wet bar with refrigerator and an enclosed head fitted with a VacuFlush toilet to satisfy even your most discerning guests. The optional extended swim platform opens a generous waterside terrace for play, and the easy access swim ladder makes getting in and out of the water a breeze.

## Manufacturer provided description

---

Among the largest bowriders on the water, the 300 SLX is also one of the most alluring, with two tone vinyl, available teak decking, and twin sterndrives underscoring its athletic elegance. Highlights include a 12V FM/CD stereo with digital display remote and iPod connector that brings soundtrack ready clarity; versatile transom seating or sun pad configurations; precise Joystick Controls; and an engine hatch with an electric lifting system that makes access effortless. A fiberglass sport spoiler accents the profile, while an integral swim

platform with a concealed stainless steel swim ladder can be expanded with the optional extended platform for even more waterside fun. The lockable enclosed head area features a molded fiberglass liner and storage cabinet; the upgrade to twin engines elevates performance, supported by the SmartCraft Diagnostics System as standard, with a SmartCraft VesselView display available on twin gasoline applications. A fully enclosed head with VacuFlush toilet includes a vanity with sink, faucet, and pullout shower sprayer, elevating comfort on every outing.

## Canvas (Sunbrella)

---

Premium Sunbrella canvas sets the tone: a bimini top integral to the tower with stainless steel hardware stands ready for sudden sun, while a snug cockpit cover and a sleek tonneau cover protect the upholstery and dash in style.

## Cockpit features

---

Every detail in the cockpit speaks to thoughtful design: integral armrests and marine grade vinyl seating provide enduring support, while eight stainless beverage holders with rubber inserts keep refreshments steady. The snap in cockpit carpet liner softens each step, and a carry on cooler with its own designated storage joins an insulated ice chest to keep provisions perfectly chilled. A custom soft touch dash frames the helm with a dedicated glove box and enclosed, lit under helm storage, complemented by a molded fiberglass floor liner and stainless steel grab handles for poised movement underway. An acrylic bow block off door tempers the breeze, and a center walk through transom door streamlines flow to the water. Engine access is simple via the dedicated hatch, LED courtesy lighting warms evening returns, and two 12V accessory outlets stand ready for your devices. Abundant storage in the helm

compartment, in-floor locker, and multiple side-panel compartments keeps gear tidy. A sturdy cockpit table sets for lunch at anchor, while the wet bar—with solid-surface countertop, stainless-steel sink and faucet, stainless grab handle, tip-out trash receptacle, and storage below—elevates entertaining. An enclosed head (VacuFlush) with a 20-gallon holding tank completes the amenity list.

## Electrical systems

---

Reliable fundamentals power the experience: a dual battery switch manages reserves housed in robust battery trays, color-coded wiring simplifies service, and a 30-amp shore power cord connects you cleanly at the dock. An onboard battery charger tends to the banks so you are always ready to cast off.

## Engine compartment

---

Confidence is built in with an automatic 12V bilge pump and a dedicated 12V high-water pump, plus two 12V bilge blowers for proper ventilation. An automatic fire suppression system with manual pull sits at the ready, while the gel-coated, insulated engine compartment keeps things clean, quiet, and cool. Bright 12V lighting aids inspection, and remote oil filters simplify routine service.

## Fuel system

---

Built for safety and range, the system features USCG Type A-1 fuel lines and a robust fuel tank engineered for reliable delivery in all conditions.

## Helm

---

At the helm, audible engine oil and water alarms stand guard, while a

Raymarine A Series chartplotter pairs seamlessly with a dash mounted compass and a powerful horn for presence. The high gloss metallic cherry instrument panel frames custom Sea Ray SmartCraft instrumentation with glass lenses, low glare blue night lighting, and chrome bezels, including tachometer, speedometer, fuel level, voltmeter, trim, and water temperature. A SmartCraft System Tachometer expands data with depth, engine alarms/hourmeter, fuel consumption/usage, trim level, and Troll Control. SmartCraft Digital Throttle & Shift (DTS) with trim switch and a lanyard stop switch—via binnacle control for all engines—delivers silky response. Power assisted steering with a tilt wheel invites fine tuning, and a sealed, backlit switch panel with weatherproof lighted chrome toggles and guards keeps command intuitive. Power tilt and trim complete a helm made for confidence.

## Hull and deck features

---

Thoughtful hardware in polished stainless sets the tone, from bow and stern eyes to six custom Sea Ray 10" cleats. Brass threaded garboard drain plugs—two with twin engines—simplify lay up, while stainless steel handrails and navigation lights reinforce durability. High performance vinylester resin and a PVC rub rail with stainless insert build in resilience, and dedicated anchor storage with hatch keeps the forepeak tidy. There is smart storage in the swim platform, stainless thru hull fittings throughout, and a well vented engine compartment. A starboard windshield wiper and a curved, tempered/tinted glass windshield complete a helm view that is as practical as it is refined.

## Seating

---

Versatility defines the layout: a bow rider arrangement with hinged cushions

reveals table storage below, while the helm is served by one bucket seat with swivel, slider, flip up thigh rise bolster, fiberglass back, and a robust rotocast shell. Dual transom seating welcomes waterside lounging, a port back to back sliding seat converts into a lounger, and aft you'll find a bench with a fiberglass storage base and sun pad filler cushions to fashion the perfect terrace.

## Underwater gear

---

Performance is underpinned by stainless steel propellers for crisp bite and hydraulic trim tabs that fine tune attitude and efficiency across the range.

## Water system

---

Freshwater amenities elevate life aboard with one faucet serving the wet bar and a pressure water system powered by a 12V pump for reliable flow. Two pullout sprayers—at the transom and in the head—make rinsing effortless, and a 24 gallon water tank keeps supply on tap.

## Disclaimer
