OVERVIEW

Meticulously maintained and presented in superb condition, this 2020 Southport 30 FE carries low hours and a never-fished history, reflecting the sophisticated adaptability of a luxury center-console. Equally suited to serve as a mid-size offshore dayboat or a sportfishing platform primed for rigging, it combines confident bluewater capability with comfortable, inviting deck spaces for coastal cruising and long days at sea. Propulsion is provided by twin Mercury V8 outboards, each producing 300 hp, while the helm is equipped with dual 16-inch Garmin multifunction displays alongside Garmin radar, Garmin VHF, and a FLIR thermal camera to enhance navigation and awareness. A graceful fiberglass hardtop shelters the steering station, Taco carbon-fiber outriggers are in place and ready, and premium JL Audio, underwater lighting, and meticulously polished finishes underscore the vessel's premium character.

DETAILED DESCRIPTION

2020 Southport 30 FE

Designed for confident offshore passages and elegant days on the water, this 2020 Southport 30 FE measures 30 feet overall with a 10 feet 6 inches beam, a 20-inch draft and a dry weight of 7,900, all carried on a continuously variable deep-V hull engineered with a 22-degree transom deadrise. Extended cruising and long-range fishing are supported by a 232-gallon fuel capacity and a 20-gallon freshwater tank, while twin Mercury Verado V8 300 hp engines provide refined, assured propulsion.

The helm delivers intuitive command: Teleflex Tournament Edition steering with power assist, an Edson wheel fitted with a power knob and deluxe helm chairs featuring flip-up bolsters make long runs comfortable and control precise. Standard creature comforts include a premium stereo with six speakers and satellite antenna/receiver for exceptional onboard entertainment, while ground tackle is made effortless by an electric windlass coupled to a galvanized plow anchor, a 300' rode and a 10' chain.

A robust fiberglass T-top mounted on a heavy-duty aluminum frame—powder coating available—creates a protective, finished profile; the fiberglass roof incorporates an integrated radar bump, fore and aft LED floodlights, two multi-colored LED overhead lights and outrigger plates, and the assembly integrates an acrylic windshield with a freshwater-rinsed wiper for clear visibility in variable conditions.

The console houses a lockable stand-up head with a flip-up entry hatch, enhanced by a stainless steel portlight, a solid-surface counter with a stainless sink and horizontal rod storage for four rods. The electronics panel is sized to accept the latest and largest dual displays and includes an accessory 12V outlet plus USB charging ports; a Ritchie Navigator compass is mounted on its own

pad, and convenient storage is provided by a box beneath the helm and a drawer at the helm station.

Guest comfort and fishing practicality converge aft with an aft-facing mezzanine seat over dual coolers, a standard slide-out trash can and dedicated tackle storage, and solid-surface armrest caps that may be finished with optional high-gloss varnished teak. Fishing systems are purpose-built: a 45-gallon livewell with light and overboard drain and twin in-deck macerated fishboxes keep the day's catch in superior condition.

Safety and seaworthiness are engineered throughout, from primary and secondary bilge pumps rated at 1,100 GPH and 2,000 GPH respectively with a high-water alarm, to a self-bailing cockpit with four transom scuppers and gasketed in-deck storage and fishboxes. The build is uncompromising: 100 percent composite construction with no wood, solid vinylester vacuum-infused hull, deck, console and hardtop, a 232-gallon polyethylene fuel tank enclosed in a fiberglass chamber, and a high-density integrally infused composite transom. Systems are specified to A.B.Y.C. standards with non-corrosive bronze through-hull valves and electrical components, dedicated port and starboard engine starting batteries plus a dedicated house bank and emergency battery crossover capability, all tied together with A.B.Y.C.-approved wiring for dependable offshore performance.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
