OVERVIEW

The tender trailing behind is a unique fiberglass Bay Head twin screw skiff, crafted for durability and in excellent condition. It boasts expansive open areas and the engines have minimal hours of use. The yacht features stunning teak decks with ample space, cockpit seating, and sleeping quarters beneath the fiberglass foredecks. While the window frames could use some varnish, this vessel promises many more years of reliable service. Only 30 of these fiberglass models were ever produced, each with various configurations. The Bay Head skiffs originated in Point Pleasant, NJ, where the Garden State Marina now stands. Initially, they built wooden hulls before transitioning to fiberglass in the 1970s. The builder had familial ties to the Johnsons, and most craftsmen had experience at both the Johnson Brothers and Bay Head Skiff Yard. If you're considering a yacht for sale, this is a rare opportunity to buy a yacht with such a storied heritage. Explore yacht sales in the current boat location to find this exceptional vessel.
