OVERVIEW

The asking figure shown is provided for guidance only; every genuine offer will be received with courtesy and given careful consideration. This Larson 310 Cabrio is a spacious express cruiser that marries assured performance with the refined comforts expected of a premium cabin cruiser, making her equally suited for coastal passages, weekend retreats, and sophisticated days afloat. Retained by her original owner and first launched in 2007, this example has been maintained with thoughtful mechanical updates and a versatile arrangement that emphasizes generous deck areas and comfortable interior volume for an elevated yachting experience.

Propulsion is delivered by twin Volvo Penta 5.0L gasoline engines paired with Volvo OceanX sterndrives, a tried-and-true combination that produces efficient, spirited handling and reliable planing performance. According to the owner, the motors were repowered at different times—one approximately two years ago and the other about five years ago—offering buyers the reassurance of modern running gear and a turnkey twin-engine platform. A Kohler generator aboard supports extended anchoring away from the dock, broadening cruising possibilities and ensuring relaxed, comfortable weekends on the water.

The cockpit of the 310 Cabrio is wide and welcoming, designed for convivial gatherings and leisurely lounging, with comfortable seating, a removable table, and a full camper enclosure that adds seasonal flexibility; newer bimini tops provide extra shade and an updated aesthetic. An integrated swim platform with boarding ladder facilitates watersports and tender access, while the walk-through windshield allows safe passage forward. The dedicated anchor locker simplifies mooring tasks, and a recently added bow cushion transforms the foredeck into an elegant sun lounge, enhancing the vessel's resort-like appeal.

Below deck the layout is bright and open, arranged to accommodate overnight stays and extended escapes with ease. A forward berth creates a restful primary retreat, while a mid-cabin sleeping area affords additional private accommodations for family or guests. The dinette converts to provide extra sleeping space when required, and the compact galley is efficiently laid out for meal preparation afloat. An enclosed head with shower completes the interior, blending practical functionality with the understated refinement expected aboard a quality express cruiser.

The owner, who has been the sole custodian since new, reiterates the repower timeline noted above and discloses a few items for prospective buyers' awareness: the cabin air conditioning is currently non-operational, the small cockpit refrigerator may struggle to maintain temperature in very warm conditions, and one trim tab gauge is not functioning. Interested parties are encouraged to carry out their own inspection and may wish to commission a professional survey to independently verify the vessel's present condition and the status of onboard systems.

A trailer is not included in this offering, though trailers can be sourced separately if required. Nationwide transport can be arranged, with custom cradles available and coordination to ports for international shipment offered on request, providing a comprehensive logistics solution from berth to destination and supporting domestic relocations as well as export.

Please note the following regarding machinery and equipment: no representation is made here as to the current operating condition of the engines, generator, or other mechanical systems. Photographs may show the engine compartment and associated machinery, but it is the buyer's responsibility to inspect and determine actual condition. Do not assume any loose gear or accessories not visible at the time of viewing are included, as the yacht is offered strictly as seen. All information presented is believed to be given in good faith for general guidance; however, neither accuracy nor the

vessel's condition is guaranteed, and interested parties should independently confirm details. The yacht is offered subject to prior sale, price change, or withdrawal without notice. All marine assets are sold as-is, where-is, without any warranty or guarantee, express or implied, including warranties of merchantability or fitness for a particular purpose, and no verbal statements shall form part of the agreement. In summary, this Larson 310 Cabrio is a stylish, capable, and well-equipped express cruiser featuring desirable twin Volvo power, a generator, camper enclosure, and a well-considered cabin layout—an attractive platform for buyers seeking a refined, family-friendly sport cruiser with the enduring versatility and charm of the Cabrio line.
