OVERVIEW

The 2024 Aviara AV32 arrives as a refined dayboat that marries contemporary design with exhilarating performance to enhance every voyage. Twin Ilmor 6.0L engines, each producing 380 horsepower for a combined 760 horsepower, shove the AV32 onto plane with authority, deliver crisp, confident handling and, when paired with intuitive JPO Joystick Piloting, make close-quarters maneuvers and slip-in dockings remarkably effortless. Whether you're skimming the shoreline of Lake Norman State Park, easing alongside waterfront dining at Hello, Sailor, or anchoring at The Sandbar for a leisurely afternoon with family, the AV32 repays every mile with a compliant ride, poised cornering and a level of finish that draws admiring looks at every marina.

Mechanical sophistication extends beyond raw power: the Autoglide automated trim tab system keeps the boat at its optimal running attitude without constant adjustment, and a cockpit heater broadens the season by adding welcome warmth on cooler mornings and evenings. Electrical needs are well met by four Gel Cell batteries paired to a 110V domestic charger, delivering steadfast onboard power for entertainment, lighting and creature comforts, and the seller is open to considering boat trades for qualified buyers.

Visually the AV32 projects an athletic monochrome presence, with a black primary hull, deck and hardtop accented by light gray hull and bottom highlights. A power-retractable aft sunshade, seamlessly integrated into the hardtop, transforms sunny afternoons into shaded retreats at the touch of a button, while a power fiberglass submersible swim platform provides effortless access to the water. A removable flagpole with American Flag adds a polished coastal flourish and a stainless-steel windlass secures a complete ground-tackle suite with rope, chain and washdown for tidy, dependable retrieval. Bow and aft-facing rubrail docking lights illuminate close maneuvers and six metal-accented fender clips hold protection exactly where you need it.

The AV32's interior is composed for upscale day-yachting, with Tan Cool-Feel vinyl that stays comfortable under the sun and Tan SeaDek cockpit flooring providing plush, non-slip footing. A teak folding cockpit table facilitates al fresco dining, while carbon solid-surface accents with Black Satin metal trim lend a crisp, contemporary edge. The light gray underside of the hardtop brightens the cockpit and frames the helm, where heated seating—mirrored throughout the cockpit—adds indulgent comfort on brisk mornings. Social zones extend toward the water with gas-assist, transom barstool-style seating, and a well-appointed wet bar, an upgraded Cordova cooler tucked beneath cockpit seating and a transom shower deliver the conveniences you expect from a true performance day yacht.

At the helm, Joystick Piloting puts precise fingertip control at your disposal and dual cooled cup holders keep beverages chilled as you run. Full RGB accent lighting throughout the cockpit—and beneath the waterline—sets the atmosphere from sunset cocktails to late-night cruises, while an integrated stereo system with dedicated bow and transom remotes fills every area with immersive sound. When left unattended, the complete helm command center stows quickly beneath a snapless quick cover in sleek black to preserve the dash with minimal effort.

Ownership is simplified through the MarineMax experience, designed to let you focus on enjoyment rather than logistics: each AV32 is delivered ready-to-go with a full tank of fuel and a Go Boating Gear kit stocked with essentials, and available financing and insurance solutions streamline acquisition. Online scheduling keeps maintenance effortless and on time, expert-led classes and seminars build confidence and skill, and exclusive Getaways! trips and customer events connect you to a vibrant community of like-minded boaters. Discover how the 2024 Aviara AV32 redefines the luxury bowrider and sport cruiser categories with a sleek profile, advanced systems and premium fit and finish—arrange a visit and schedule a demo ride to experience the difference firsthand.
