DETAILED DESCRIPTION

Section name

****The New 2024 Blackfin 302 DC****

The 2024 Blackfin 302 DC is an extraordinary craft that effortlessly merges high performance with excellent fishing capabilities, making it the perfect option for those who desire both excitement and relaxation on the water. Central to this boat's outstanding performance is the distinctive hull design by Michael Peters, featuring a dual-step configuration that boosts speed and guarantees an exceptionally smooth and dry journey. This cutting-edge design is paired with Blackfin's dedication to equipping the vessel with everything necessary for avid fishing, while also providing a versatile crossover layout ideal for spending quality time with loved ones.

This specific Blackfin 302 DC is powered by twin white Mercury Outboards V10 350XL Verado DTS engines, complete with a joystick for seamless handling. The boat's visual allure is heightened by a stunning sapphire gel hull side and an arctic gel hull bottom, while the interior showcases the opulent Feather Ultra Fabric. For those who enjoy nighttime outings, the underwater LED lights create an enchanting atmosphere.

Additional amenities include an upgraded anchor rode with an all-chain setup instead of rope and chain, a diver ladder for the side door, and a Seadek swim platform inlay in grey. The boat also features aft and bow shades in grey canvas, along with bow and cockpit covers in sapphire, ensuring comfort and protection from the elements. For added convenience, front, side, and drop curtains in sapphire canvas are provided.

Culinary aficionados will value the electric grill with inverter, perfect for preparing delightful meals on the water. Navigation and communication are simplified with dual Garmin 8612 displays, a VHF 315, and a Garmin GMR

18xHD radome. Furthermore, the boat is equipped with a macerator with overboard discharge, ensuring practicality and ease of use.

In conclusion, the New 2024 Blackfin 302 DC is a vessel that delivers an unmatched combination of performance, luxury, and adaptability, making it the ideal choice for those who seek both adventure and tranquility on the water.

Basic boat info

Introducing the L110, a breathtaking new member of the Blackfin lineup, the 2024 Blackfin 302 DC. This power-class vessel exemplifies Blackfin's dedication to excellence and cutting-edge innovation. Meticulously crafted, the boat is made from robust fiberglass, guaranteeing durability and a polished appearance. The L110 is more than just a name; it bears the distinctive Boat Hull ID BKFBL110G324, confirming its authenticity and superior craftsmanship. As a fresh model, the 302 DC represents the pinnacle of marine technology and design, delivering a contemporary and sophisticated experience on the water. Constructed by the esteemed Blackfin, this boat ensures outstanding performance and dependability. Whether you're an experienced mariner or a newcomer to the boating scene, the L110 is tailored to fulfill your desires with elegance and effectiveness. With its certified hull ID, you can trust in its quality and the meticulous craftsmanship that Blackfin is celebrated for.

Dimensions

The Blackfin 302 DC's dimensions are thoughtfully crafted to deliver both practicality and sophistication on the water. With an overall length of 32 feet 8 inches, this vessel offers plenty of space for relaxation and activity. Its beam spans a generous 10 feet, providing stability and spaciousness, while the maximum draft of 2 feet 11 inches allows for adaptable navigation across

diverse water conditions. For those venturing into shallower areas, the minimum draft of 1 foot 8 inches is perfectly suited.

The bridge clearance is 8 feet 9 inches, making it ideal for a range of cruising settings, including those with lower overhead limits. The 23-degree deadrise highlights the boat's design, ensuring a smooth and efficient journey even in rough waters. Furthermore, the electrical circuit is configured at 12 volts, ensuring dependable power for all onboard systems. These dimensions and specifications together guarantee that the Blackfin 302 DC is not only a vessel of elegance but also one of outstanding performance and adaptability.

Engines / speed

The Blackfin 302 DC is equipped with a powerful and efficient engine configuration, featuring a pair of Mercury V10 350XL Verado DTS engines. These outboard motors are crafted to provide outstanding performance and reliability, making them perfect for both relaxing cruises and adventurous voyages. Each engine delivers an impressive 350 horsepower, with one positioned on the port side and the other on the starboard, ensuring balanced thrust and excellent maneuverability.

Running on unleaded gasoline, these engines are not only potent but also efficient, offering a combined engine power of 700 horsepower. This significant power output allows the Blackfin 302 DC to reach remarkable speeds while maintaining smooth and stable control. Whether you're traversing open seas or exploring coastal waters, the engine setup of the Blackfin 302 DC promises an exhilarating and reliable experience on the water.

Tanks

The Blackfin 302 DC boasts a meticulously crafted tank system that provides all the essential resources for extended adventures on the water. The fuel tank,

with its impressive 240-gallon capacity, enables long voyages without the need for frequent refueling, offering peace of mind and convenience for avid explorers. Complementing this is a 50-gallon water tank, ensuring you have plenty of fresh water for drinking, cooking, or cleaning.

Moreover, the yacht is equipped with an 11-gallon holding tank, designed to handle waste efficiently and hygienically. This well-thought-out integration of tanks not only enhances the vessel's functionality but also elevates the overall onboard experience, allowing you to fully enjoy your time on the water without concerns about resource availability.

Additional info

The Blackfin 302 DC is a highly adaptable and well-appointed yacht, crafted to comfortably host up to 14 guests. It includes a single head, making it ideal for both dual console and fishing excursions in both saltwater and freshwater settings. The manufacturer has meticulously detailed the boat's distinctive hull design by Michael Peters, which boosts performance and ensures a smooth, dry journey. This model is fully equipped for serious fishing, while also offering a crossover design perfect for leisure with friends and family.

The cockpit is expertly designed with a 30-gallon insulated baitwell, custom Blackfin buckets, and a cockpit table featuring a SeaDek inlay. It is fitted with blue and white LED courtesy lights, 11 drink holders, and washdown faucets for both fresh and raw water. The fiberglass cockpit liner is non-skid and self-bailing, while the in-floor insulated fish boxes with macerated pump-outs add practicality. Additional features include a lockable glove box, recessed stainless steel grab rails, and strategically placed rod holders throughout the vessel.

The helm is outfitted with a compass, digital engine monitoring system, and a stainless steel steering wheel with a urethane grip. Power-assisted tilt steering and illuminated weatherproof switches enhance the driving experience, while

the starboard windshield wiper ensures clear visibility. The hull and deck feature advanced carbon fiber technology, a fiberglass hardtop system, and a bow thruster for improved maneuverability. The swim platform and telescoping ladder offer easy water access, while the tempered glass windshield with a walk-through door adds to the vessel's functionality.

Seating arrangements include U-shaped bow seat cushions, flip seats with a 45QT Yeti cooler, and a foldaway transom bench seat. The console is equipped with an electric toilet with a holding tank, a vanity with a solid surface top, and a sink with a pullout sprayer. The electrical systems are robust, featuring a battery charger, weatherproof electrical system, and 12V shore power. The bilge compartment is fitted with automatic bilge pumps and a high water alarm for safety.

The fuel system is designed with double clamped fuel lines and water-separating fuel filters, while the underwater gear includes trim tabs with indicators and auto-retract. Optional features include twin white Mercury Outboards 350XL Verado DTS V10 engines, sapphire and arctic gel hull finishes, and a Feather Ultra Fabric interior. Additional luxuries such as underwater LED lights, an electric grill with inverter, and advanced navigation systems like dual Garmin 8612 and Garmin GMR 18xHD Radome enhance the overall experience.

Please be aware that while the company provides these details in good faith, it cannot guarantee the accuracy or condition of the vessel. Potential buyers are advised to have their agents or surveyors verify the information. The vessel is subject to prior sale, price changes, or withdrawal without notice.
