OVERVIEW

2017 Greenline 33 Hybrid

The Greenline 33 epitomizes contemporary efficiency and innovation. Equipped with 1980 watts of solar power and 11.5 kW of lithium battery storage, this yacht allows you to glide through the waters at 5 knots in electric mode. With a simple switch, you can effortlessly transition to diesel mode and reach speeds of 15 knots! The robust battery and inverter system ensure that you have 110V power at your fingertips, eliminating the need for a generator. Since 2009, Greenline Yachts, based in Slovenia, has been crafting exceptional vessels, including hybrids since 2011, with over 700 yachts delivered to date. This particular yacht for sale is a one-owner vessel with a mere 500 engine hours (electric hours are not logged) and has just undergone its 500-hour service.

Currently located in Canada, this yacht sale will incur a 1.5% duty for buyers in the US.

For further details or to schedule a viewing, please reach out to our dedicated brokers. We are here to assist you with any inquiries regarding yacht sales in the current boat location and help you in your journey to buy a yacht.
