OVERVIEW

2024 Sealine-designed 33-foot | Turkey

Polished and contemporary, this new 2024, 33-foot sport cruiser marries Sealine's refined British styling with expert Turkish craftsmanship. A generous 11-foot beam gives the hull a composed, stable stance and creates roomy living areas both inside and out, while a shallow 2.3–2.9 ft draft lets you slip into secluded coves and nearshore anchorages that larger boats must avoid. Propelled by twin Mercury outboards, the yacht offers lively, hushed thrust and confident, responsive handling that rewards an active helmsman. The efficient drive package is matched with a substantial 150.6-gallon fuel tank, allowing extended coastal runs and carefree weekend cruises without frequent refueling.

Boarding reveals a sociable cockpit configured for effortless entertaining—a welcoming lounge flowing toward the swim platform sets the scene for long lunches, golden-hour drinks, and evenings beneath the stars. The GRP deck and premium composite construction deliver strength, longevity, and a quiet ride, while considered fittings and secure handholds enhance safety underway. Belowdecks, Sealine's interior philosophy is evident: broad hull windows invite daylight deep into a warm, contemporary cabin that sleeps four across a versatile forward berth and a tranquil mid-cabin, providing genuine overnight comfort. A well-equipped head with shower and vanity adds convenience, and the compact galley supplies all you need for morning espresso and simple onboard meals. A 58.1-gallon freshwater capacity keeps your time aboard pleasantly independent.

With balanced proportions, purposeful detailing, and an emphasis on practical usability, this 33-footer performs as well as it pleases, whether you're dayboating with friends, island hopping, or stealing away for a long weekend. Turn the key, point the bow seaward, and let the journey unfold.

DETAILED DESCRIPTION

Sea line

Based in Turkey, this 2023 Sealine C335v blends assertive outboard performance with refined, all season cruising comfort, presenting an overall length of 10.31 m that extends to 11.01 m including the platform, with a hull length of 10.07 m and a waterline length of 9.30 m, a beam of 3.50 m that reaches a maximum of 3.59 m, an air draft of 3.48 m and a versatile draft varying from 0.72 m to 0.89 m to ease bridge clearances and access to shallow coves. Power is delivered by two Mercury V8 300 HP outboards showing just 120 hours, producing a combined 448 kW for lively acceleration and confident passage making, while a Panda 5 kW generator supports life aboard and systems are sustained by a 570 L fuel capacity, a 220 L fresh water tank, a 220 L grey water tank and a 100 L black water tank, with daily comfort assured by a 40 L boiler and two 1.8 kg gas bottles for efficient galley service. The electrical architecture is comprehensive, centered on a 12V DC system anchored by two 90 AH engine batteries and three 160 AH service batteries, complemented by 220V AC 50 Hz single phase shore power, and the DC panel feeds navigation electronics, interior lighting, water pumps, macerator, windlass, bow thruster and refrigerators to ensure seamless autonomy both underway and at anchor. Effortless control and confident handling come via a joystick maneuvering system with forward/reverse, side shift and rotation control, Raymarine radar, Mercury autopilot, the DPS Skyhook satellite anchor function, an electric windlass, trim tabs and VHF, while a climate controlled interior features two air conditioning units and Webasto heating and the well appointed galley offers a stove and refrigerator, with an electric toilet, cockpit shower, dimmable lights and an electric sunroof elevating everyday onboard living. Her structural and regulatory integrity is underpinned by a dry weight of 6,911 kg

and a fully loaded weight of 8,060 kg, CE certification by DNV and UKCA certification from HPI CEproof, rated Category B (Offshore) for eight persons — 1150 kg and Category C (Inshore) for eight persons — 1150 kg, with certificate date 06/12/2023. In sum, the 2023 Sealine C335v delivers the features discerning owners seek: twin Mercury V8 300 HP engines with only 120 hours, a Panda 5 kW generator, dual air conditioning and Webasto heating, and a suite of driver assist technologies including joystick maneuvering, autopilot, radar and a satellite anchor system, all supported by CE and UKCA certifications for complete peace of mind.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
