## OVERVIEW

---

Built on the celebrated Southport 33 hull, the 33 Dual Console marries the marque's offshore heritage with cultivated comforts for owners who prize family cruising and effortless conviviality. True to Southport's sportfishing lineage, this DC produces a remarkably dry, secure, and fuel efficient passage that competes with much larger cruisers; spend untroubled days reclining, diving, and following the sunset, or push out to a favored island with assurance—the homeward leg remains steady even when the sea stiffens.

A full engine service and complete detail were performed in August 2023, and recent enhancements lift every voyage: an integrated Helm Master EX autopilot paired with 425 hp power, a brand new Garmin GPSMAP 8622 multifunction display, and a new Garmin GSD 26 CHIRP professional sonar module for pinpoint targets. Versatile as an offshore sportfisher and family dayboat, she equally excels as a coastal cruiser and luxury bowrider, and is perfectly at ease serving as a capable powerboat or motor yacht tender for bluewater adventures.

# DETAILED DESCRIPTION

---

## Manufacturer provided description

---

Designed on the proven Southport 33 platform and refined for family cruising and effortless entertaining, the Southport 33 Dual Console blends the brand's fishing DNA with the dry, safe, and remarkably economical ride of far larger cruisers. Spend the day relaxing, swimming, and chasing sunsets, or stretch out to a favorite island with confidence in a composed ride home even when the ocean turns angry. A full engine service and complete cosmetic detail were just completed in August 2023. Her finish is thoughtfully curated: the hull wears Whisper Gray with a white bottom and no bottom paint, complemented by a Snow White deck gelcoat, a light gel coat hull tone in Whisper Grey, an elegant two tone hull treatment, and a White Diamond metallic boot stripe. Function meets form with transom swim platforms featuring integrated hull rub strakes and an under platform ladder, alongside a dedicated dive ladder for easy reboarding. Bow seating is protected by a White Stamoid tonneau cover, while the interior presents "Eggshell" Brown upholstery with darker brown top stitching and logos, plus quilted cushion patterning with matching stitch color. A fixed height teak table anchors the forward cockpit, and powder coating dresses both the rocket launcher with six rod holders and the forward cockpit grab rails. At the helm, the Stidd Slimline Admiral helm chair with a powder coated, deck penetrating pedestal delivers all day comfort, paired with an Edson wheel and Power Knob for precise control. Below, the port console offers a twin six foot long berth and storage area, while climate control is comprehensive: a 6,000 BTU AC system serves the cabin and head compartment, and a 12,000 BTU AC system conditions the helm. Power is substantial and sophisticated. The upgrade to twin Yamaha 425 HP 5.6L XTO Offshore V8 engines with electric steering and direct fuel injection is

complemented by a large CL7 color display, all in Yamaha White with approximately 45 hours of use. Engine identifiers are as follows: XF425NSA2 Engine SN: 6GRN1004029 with Lower Unit SN: AGS2040068, and XF425NSA2 Engine SN: 6GRN1004024 with Lower Unit SN: AGR1870220. Precision maneuvering comes via a bow thruster, while the Seakeeper2 gyro stabilizer system keeps the boat level and guests comfortable at rest or underway. An electric windlass handles anchoring with a galvanized plow anchor, 300' of rode, and 10' of chain. Entertainment and onboard power are equally advanced. The JL Audio M100s BE stereo system fills the boat with rich sound through six speakers, complemented by a satellite antenna receiver and remotes. A 3000 watt pure sine wave inverter with a built in 150 amp battery charger feeds a 1340 amp hour bank of deep cycle AGM batteries—powering AC systems away from the dock without the need for a generator. The SP Accessory Optional Entertainment Center adds a 110 volt electric grill, sink, inverter/battery charger system, and shore power. All batteries were replaced with new units in August 2023. Electronics are robust and seamlessly integrated. The Helm Master EX autopilot for the 425 HP package is fully integrated. Navigation and fishfinding are driven by a Garmin GPSMAP 8622 MFD, a Garmin GSD 26 CHIRP professional sonar module, and a Garmin card reader, backed by Garmin Airmar B175L (20 degree tilt) and B175H (20 degree tilt) transducers. Networking is expanded through a Garmin GMS 10 network port expander, Garmin GA 38 GPS/GLONASS antenna, Garmin NMEA 2000 starter kit, and a Garmin NMEA 2000 multi port T connector, with Garmin Marine Network cables in 6 foot and 20 foot lengths—the latter providing a Fusion interface. Communications are managed by a Garmin VHF 315 marine radio and a Garmin AIS 800 blackbox transceiver, while regional charting is supplied via the Garmin microSD/SD card VUS010R for South Florida and the North Bahamas. The antenna suite features a Digital Antenna 8FT VHF antenna with 6 dB gain mounted on a D. Lilly stainless steel ratchet laydown mount. Security and signaling are enhanced by GA Strobe White

GOST strobe lights—ultra small, self contained, semi hemispheric LED units that can be surface mounted or internally mounted within composite headlamps, cornering lamps, and tail light assemblies. They offer 25 Scan Lock flash patterns, include a synchronize feature for alternating and synchronous flashing across multiple lamps, and benefit from new lens technology that optimizes light dispersion and warning intensity at critical angles. Each includes a chrome flange and a surface mount kit made of durable ABS plastic. Additional components include the GMM IP67 IBS Siren Out and a GOST Marine Magellan IP 67 rated photoelectric beam sensor complete set with a 33' cable and an additional output for connecting a siren (siren not included). Rounding out entertainment, a Shakespeare SRA 50 Sirius Satellite Radio antenna keeps the soundtrack going wherever the day leads.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
