DETAILED DESCRIPTION

Description

Delivered with a custom, brand new Ameritrail trailer, this package is turn key and comprehensively upgraded for performance, protection, and comfort. The trailer rides on 16 inch wheels fitted with G rated tires and includes a matching spare rim and tire, stainless steel U bolt hardware and stainless steel calipers, Custom Invincible Steps along the sides, a trailer setup optimized for a step hull, and an enhanced lighting package that includes reverse lights; the entire trailer has been professionally treated with the Armus Hull Pro protective application by DNA Surface Concepts to ensure longevity and corrosion resistance. The boat itself benefits from professional ceramic coating applied by DNA Surface Concepts for a deep, long lasting gloss and simplified maintenance, with Yacht Armor protecting the hull sides, all Garmin and electronic screens, the radar, and the engine exhaust areas, while below the waterline — including the lower units — everything is sealed with the Armus Hull Pro application. Underfoot comfort and grip are elevated by Seadeck at the helm pad bearing the Invincible logo, on the swim platform, on a custom console pad with storage inserts, and throughout the storage and head area, marrying luxury and practicality.

Audiophile grade sound and purpose built electronics complete the helm for both leisure and serious fishing: a Fusion WB670 black box stereo powers four JL M6 10 inch subwoofers, four JL M6 8.8 inch speakers, and four JL M6 7.7 inch speakers, driven by two JL MV800/8i amplifiers and one JL MV600/1 monoblock to deliver room filling clarity and punch. Convenience and capability are amplified by a Scanstrut Rokk 10W waterproof wireless phone charger, three ABYSS Group 31 Deep Cycle Plus trolling batteries with Bluetooth, four Lumitec underwater lights, two Lumitec Razor lightbars, and a

SiriusXM antenna that provides radio, weather, and fishing data. Seating is bespoke Miami Prestige Deluxe leaning post style with a backrest, armrests, and storage beneath for true comfort at the helm. Performance detailing includes a USP Marine Tuning MAX+ forced air duct for the Mercury 400 V10 engines, color matched in white, and a custom Gemlux steering wheel in anodized gray with gray wrapping and an Invincible logo knob.

Factory options and electronics speak the language of serious anglers and refined cruisers: Kingston Gray hull color; Mercury 400 V10s in white displaying 110 hours; Mercury JPO steering with joystick piloting; a Garmin 8616XSV MFD paired with a Garmin 8616 MFD and a 1 kW transducer; a Garmin GMR Fantom 54 open array radar and a Garmin temperature sensor. Communications and entertainment are bolstered by a Shakespeare 5225 XT eight foot VHF antenna and a Shakespeare 5235 XT eight foot AM/FM antenna. Night duties and bluewater runs are supported by two LED hardtop spreader lights and two GEM Deluxe outriggers with carbon fiber poles, while six rod holders span the aft edge of the hardtop. Protection and all weather comfort at the helm are provided by a three panel polycarbonate enclosure with two wing panels. Tackle organization is extensive, with four vertical rod holders on the console and six on the coffin console, a Best Marine sea chest with three pumps and a high speed pickup for the livewell sea chest, a tackle station in the leaning post, transom tackle storage drawers, a sink with tackle drawers, and two electric reel outlets. Cold keeping and deck ergonomics are addressed by a Frigid Rigid cooler on a slide and an extended coffin console, and docking durability is enhanced by a premium rigid rubrail with a stainless insert. Deck washdowns are provided in both fresh and salt configurations with a 20 gallon freshwater system alongside the saltwater washdown, and boarding is effortless via a dive ladder. Below decks, comforts include a deluxe electric head in the console and a full sized head, all supported by a battery charger with a galvanic isolator; safety and visibility are completed by three automatic 2,000 GPH bilge pumps and LED under gunnel lighting, presenting a turnkey

platform that balances tournament grade readiness with everyday refinement.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
