OVERVIEW

The most diminutive jewel of the Venom line captures every hallmark of its larger sisters in a sleek, compact form. Central to this yacht is a carefully engineered stepped hull by celebrated naval architect Lorne Campbell, whose signature two strategically placed steps marry formidable offshore capability with refined fuel economy. That inventive hull geometry delivers balanced performance and improved efficiency even in demanding weather, while the vessel's elegant lines and meticulous build underscore a commitment to luxury, practicality, comfort, and superb craftsmanship. As with all Venom models, a stylish T-Top is fitted as standard, enhancing both form and function. Available for sale at its current boat location, this yacht invites those who wish to buy a vessel that promises an extraordinary and efficient experience on the water.
