# OVERVIEW

---

Repowered in 2021 with a Mercury V8 300 HP

Offers invited

The Zeta Elle RIBs series from Akes is a masterful synthesis of form and contemporary engineering, its hull reworked with the latest technological refinements to elevate on water performance. Those improvements deliver a drier ride, a markedly lower trim angle and increased speed, while consciously reducing the aerodynamic resistance that commonly afflicts RIBs. As a tender it promises exceptional comfort even at velocity, maintaining a shallow trim angle and offering supremely easy handling.

Its distinctive hull contours and wave piercing bow translate into an unmatched serenity when cutting through choppy seas, smoothing passage and enhancing confidence underway. Practicality is not overlooked: a generous, easily accessed storage compartment fitted with a hydraulic lift accommodates water toys and luggage with effortless convenience. The vessel is currently configured for towing and can also be stowed on deck using the supplied hardware, making transport and berth management straightforward. Located where shown, this craft represents an opportunity to acquire a yacht that harmoniously combines luxury and performance.
